Price Making in a Democracy Edwin Griswold Nourse,1944 **Making Democracy Work Better** Richard A. Couto,2003-07-11 The decade of the 1980s marked a triumph for market capitalism As politicians of all stripes sought to reinvent government in the image of private enterprise they looked to the voluntary sector for allies to assuage the human costs of reductions in public policies of social welfare This book details the savage side of market capitalism in Appalachia and explains the social political and economic roles that mediating structures play in mitigating it Profiling the work of twenty three such mediating structures community based organizations that battled to provide social safety nets fight environmental assaults and upgrade the education and job skills of Appalachian residents Richard Couto distills the practical lessons to be found in their successes and shortcomings Couto argues that a broader set of democratic dimensions be used in taking the measure of civil society and public policy in the twenty first century He shows that mediating structures promote the democratic prospect of reduced inequality and increased communal bonds when they provide and advocate for new forms and increased amounts of social capital the public goods and moral resources that we invest in one another as members of a community *Price-making in a Democracy* ,1942 **First Two Years** Maurice and Laura Falk Foundation,1946 **Price Making in a Democracy. By Edwin G. Nourse** Brookings Institution,Edwin Griswold NOURSE,1944 *Making Democratic Citizens in Spain* P. Radcliff,2011-03-23 A fascinating study of the contribution of ordinary men and women to Spain s democratic transition of the 1970s Radcliff argues that participants in neighbourhood and other associations experimented with new practices of civic participation that put pressure on the authoritarian state and made the building blocks of a future democratic citizenship *Free Enterprise, Price Policy, and Democracy* Edwin Griswold Nourse,1942 *Price-making in a Democracy: Free enterprise and laissez faire* Edwin Griswold Nourse,1942 **Report of the Executive Director for ...** Maurice and Laura Falk Foundation,1951 *Price-making in a Democracy: The timing of price changes* Edwin Griswold Nourse,1942 Democratic Campaign Book Democratic Congressional Committee,1890 *The Cost of Development in China* Guangyu Hu,2017-05-10 This book focuses on the future of China and its sustainable development and summarizes the implications forms causes countermeasures and related rules of the main costs generated during a country s period of development so as to provide a theoretical reference and decision making consulting tools for institutions and scientific governance and management professionals Combining China s national situation and development characteristics with the country as a unit it uses case studies to propose the concept of cost theory and the theoretical system of national development cost Focusing on the goals of innovation in nation building common development and prosperity as well as enhancement of people s net welfare the book summarizes and draws conclusions about various aspects of national development including economic development cost political social and cultural development cost foreign opening up development cost and nature development cost It primarily establishes an indicator system of national development cost for

Institute of Governmental Studies. Library,1970 Democratic Campaign Handbook Democratic National Committee (U.S.),1888 **Price-making in a Democracy: Areas of applicability of low-price policy** Edwin Griswold Nourse,1942 **Making Democracy in Spain** Joe Foweraker,2003-10-02 This book exploring the making of democracy in Spain during the twenty long years before the death of Franco seeks out the beginnings of democratic struggles at the grass roots of civil society Rather than one more account of the transition to democracy in Spain this is the story of the countless unsung heroes who prepared the political terrain of this transition The story suggests that it was social needs and economic demands which spawned individual discontent and political dissent but that the struggle itself required continual political organization and calculation The book therefore explores the personal networks and political strategies which sustained the struggle and reveals that their contribution to the making of democracy was often contradictory and always piecemeal Democratic struggle is not defined by a single idea of democracy but by myriad attempts to achieve more autonomous action and more effective forms of representation

Democratic Text-book Democratic National Committee (U.S.),1912 **Report of the Director** Maurice and Laura Falk Foundation,1945 **Making Democracy Work for Pro-poor Development** Manmohan Singh,Commonwealth Secretariat,2003 This report focuses on how to make democracy work for pro poor development and on development policies that in themselves uphold and promote democratic values It argues that development and democracy are not only goals in their own right but must also be mutually reinforcing It says that governments the private sector civil society and the international community all have a vital role to play in delivering development and democracy and calls for responsibility partnership and concrete actions The report contains recommendations for action at both national and international levels It is of interest to policy makers multilateral and bilateral agencies the private sector civil society organisations and all those committed to development democracy and the achievement of the Millennium Development Goals *The Powers and Aims of Western Democracy* William Milligan Sloane,1919
