compendium of criticism relating to Shakespeare s Coriolanus was recognised as a major contribution to teaching and
scholarship on the play This new edition has been updated with a new supplementary introduction by the author tracing
criticism on the play since that first publication including materialist psychoanalytic and feminist readings as well as further
readings of the play s politics As with all titles in the series this edition increases our knowledge of how Shakespeare s plays
were received and understood by critics editors and general readers The volume offers in separate sections both critical
opinions about the play across the centuries and an evaluation of their positions within and their impact on the reception of
the play The chronological arrangement of the text excerpts engages the readers in a direct and unbiased dialogue whereas
the substantial introduction offers a critical evaluation from a current stance including modern theories and methods Thus
the volume makes a major contribution to our understanding of the play and of the traditions of Shakespearean criticism
surrounding it as they have developed from century to century *Love* Elizabeth Von Arnim,1925 **Emotion Concepts**
Zoltan Kövecses,2012-12-06 This chapter briefly describes the general goals of the book introduces the most fundamental
features of the methodology that is employed to achieve these goals and gives an outline of the structure of the book A more
detailed account of the goals and methodology is presented in chapters 2 and 3 respectively What the Book Is About The
main objective of this study is to attempt to answer the question How do people understand their emotions As we shall see in
the next chapter a large number of scholars have tried to provide answers to this question The interest in the way people
understand their emotions has led scholars to the issue of the nature of emotion concepts and emotional meaning Since the
notion of understanding involves or presupposes the notions of concept and meaning it was only natural for scholars with an
interest in the way people understand their emotions to tum their attention to emo tion concepts and the meaning associated
with emotion terms So the broader issue has often become more specific For example Davitz in his *The Language of Emotion*
formulated the central question in the following way What does a person mean when he says someone is happy or angry or
sad Davitz 1969 1 *Love's labor's lost. Merchant of Venice. Midsummer night's dream. Romeo and Juliet* William
