Prince Philip Prince Philip (consort of Elizabeth II, Queen of Great Britain), 1994 The Museum Accessibility Spectrum Alison F. Eardley, Vanessa E. Jones, 2025-01-16 The Museum Accessibility Spectrum engages with discussions around access to museums and argues that what is impairing the progress of museums towards inclusion is the current ableist model of access Drawing on contributors from international museum researchers practitioners artists and activists this volume challenges the notion of the core able museum visitor and instead proposes all individuals are positioned on a multidimensional Accessibility Spectrum which incorporates intersecting physical sensory neurodivergent and social and cultural dimensions It explores the ways in which access provisions designed to enhance the experience of a minority can enhance the museum experience for all visitors A constructively critical approach is taken to practice based chapters using case studies and approaches from around the globe split into three main sections Within the Disability Gain section the authors consider the benefits of inclusive design perspectives and practice for all visitors to the museum sector The Social and Cultural Inclusion section examines ways in which museums have broadened representation and participation to better serve audiences who have been excluded or underrepresented by the museums Finally the Agents of Social Change section considers how with this work museums are challenging systemic biases and exclusions The international cross disciplinary contributions in this volume are driven by research informed practice and will transform existing thinking to change future practice within the museum sector by challenging this ableist bias This book will be of interest and importance not only to museum practitioners and researchers but also to readers with an interest in cultural studies critical disability studies translation studies and inclusive and universal design The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Liechtenstein, the Princely Collections Metropolitan Museum of Art (New York, N.Y.), Sammlungen des Regierenden Fürsten von Liechtenstein, 1985 Liechtenstein is one of the smallest European states a principality situated between Austria and Switzerland in the Upper Rhine Valley The nation is less than three hundred years old but the ruling family whose name it bears traces its lineage back to the twelfth century For successive generations members of the Princely House of Liechtenstein have been devoted art collectors With a high degree of appreciation of artistic achievement they have pursued a centuries long family tradition of acquiring not only great paintings and sculpture but also rare firearms fine porcelain and other works of art The result of this tradition is a collection of masterpieces that in its depth and breadth reflects more than four hundred years of European history and ranks among the world's greatest private collections This publication accompanies an exhibition at The Metropolitan Museum of Art that marked the first time the masterpieces from this private collection were put on public display The rich and varied array of paintings sculpture and other works included in this exhibition not only represents the paradigm of a great European princely collection but also has the added distinction of
