restricted the subject in agreement with the publishers in order to ensure a successful and useful volume that is likely to be generally noticed and widely available as these up to date contributions deserve Furthermore we have compiled this volume in a fairly new way for congress proceedings In view of space limitations and the need to guarantee a high quality and sufficiently specialized book we subjected all manuscripts to a four level internal review process and selected only the best 23 of the 50 submissions We favored natural observation work over captive studies This rejection rate of 54% exceeds that of almost all reviewed scholarly journals
