Managing Compliance A Guide For Insurance Professionals:

Managing Compliance Dennis M. Groner, 2002 Managing Compliance Dearborn Financial Publishing, 2002-10

Managing Compliance A Guide for Insurance Professionals trains general agents and agency managers to carry out their responsibilities relating to compliance and market conduct of the agents and administrative staff they directly and indirectly manage. The course focuses on guiding managers in carrying out their responsibilities as effectively and efficiently as possible. Specific training is provided in how to control compliance and market conduct risk, how to develop an effective supervisory system, how to develop and communicate standards and policies and procedures, how to monitor and supervise compliance and market conduct, how to take corrective action on potential problems, and how to prepare for market conduct and compliance exams and audits. If you are taking this course for CE, the CE exam will automatically be added to your basket when selecting CE credit. Certain states require that a proctor or monitor supervise the exam taking process. Compliance for Coding, Billing & Reimbursement, 2nd Edition Duane C. Abbey, 2008-04-02

While the vast majority of providers never intend to commit fraud or file false claims, complex procedures, changing regulations, and evolving technology make it nearly impossible to avoid billing errors. For example, if you play by HIPAA's rules, a physician is a provider; however, Medicare requires that the same physician must be referred to as a supplier. Even more troubling is the need to alter claims to meet specific requirements that may conflict with national standards. Far from being a benign issue, differing guidelines can lead to false claims with financial and even criminal implications.

Compliance for Coding Billing Reimbursement Second Edition A Systematic Approach to Developing a Comprehensive Program provides an organized way to deal with the complex coding, billing, and reimbursement CBR processes that seem to force providers to choose between being paid and being compliant. Fully revised to account for recent changes and evolving terminology, this unique and accessible resource covers statutorily based programs and contract based relationships, as well as ways to efficiently handle those situations that do not involve formal relationships. Based on 25 years of direct client consultation and drawing on teaching techniques developed in highly successful workshops, Duane Abbey offers a logical approach to CBR compliance. Designed to facilitate efficient reimbursements that don't run afoul of laws and regulations, this resource addresses the seven key elements promulgated by the OIG for any compliance program. Discusses numerous types of compliance issues for all types of healthcare providers. Offers access to online resources that provide continually updated information. Cuts through the morass of terminology and acronyms with a comprehensive glossary. Includes a CD ROM packed with regulations and information. In addition to offering salient information illustrated by case studies, Dr. Abbey provides healthcare providers and administrators, as well as consultants and attorneys with the mindset and attitude required to meet this very real challenge with savvy humor and perseverance.
