Managing Contractors A Guide For Employers:

Managing Contractors Great Britain. Health and Safety Executive, 2011 Managing contractors is a guide for small to medium sized companies in the chemical industry but it will also be of use to other industries and larger companies Safe working with contractors presents a challenge but being a smaller company has its advantages You can be more flexible in your approach and decisions can be made more quickly Lines of communication are shorter usually there are not too many people involved and it is easier to know who is around In this guidance we aim to help you understand what you need to do and give sound practical advice for action Working together helps everyone to work safely This second edition brings guidance and references up to date *Construction Site Safety* Richard D. Hislop, 1999-06-29 An important part of an organization's overall safety and health program involves safety management for contractors A contractor with a poor safety program can adversely affect quality productivity schedules and overall cost This book explains how to manage project safety and improve the odds of an injury free workplace If project managers are to apply their judgment wisely they need to know the rationale for each requirement and how to implement it They must know what is to be done who is to do it and when and how it should be done The author considers all these factors *Construction Site Safety* addresses the fundamental elements of a successful construction safety program The author explains the industry trends and best practices that enable job site managers or field engineers to understand the necessary steps to ensure that contractors have and follow safety guidelines

Tolley's Practical Risk Assessment Handbook Mike Bateman, 2006-08-14 Risk assessment has become the backbone of health and safety management in the UK and elsewhere Employers have a legal duty to prove that risk assessments have been carried out and to ensure that appropriate precautions have been implemented Mike Bateman demystifies the risk assessment process and how it relates to UK legislation He covers both the general techniques and the assessment of specific risks such as hazardous substances COSHH noise manual handling Display Screen Equipment DSE workstations Personal Protective Equipment PPE fire asbestos and work at height The book is practical in its approach to risk assessment rather than being overly legalistic or academic and tells the reader how to go about risk assessment not just what the legislation requires It contains numerous checklists forms and worked examples for a variety of hazards and industries This edition has been fully updated to take into account the impact of the following requirements on risk assessments Work at Height Regulations 2005 full new chapter Control of Noise at Work Regulations 2005 Regulatory Reform Fire Safety Order RRFSo 2006 Mike Bateman runs his own health and safety consultancy and specialises in risk assessments He is a corporate member of IOSH and a registered health and safety practitioner **Understanding and Negotiating Turnkey and EPC Contracts** Joseph A. Huse, 2002 This work aims to keep criminal lawyers up to date with the latest cases and legislation and includes longer articles analyzing current trends and important changes in the law Drawing all aspects of the law together in one regular publication it allows quick and easy reference **An Employer's Guide to Health & Safety Management**

A Contractor's Guide to the FIDIC Conditions of Contract Michael D. Robinson, 2011-02-16 This guide will help the contractor's staff overcome some of the difficulties encountered on a typical international contract using FIDIC forms. The majority of FIDIC based contracts use the Red Book Conditions of Contract for Construction so this book concentrates on the use of those particular forms. Supplementary comments are included in Appendix C for the Yellow Book. Plant legal advice should be obtained as and when necessary particularly if the Contractor has little or no knowledge of the local law. Armed on site with a copy of The Contractor and the FIDIC Contract the Contractor's Representative will be more able to avoid contractual problems rather than spend considerable time and energy resolving those problems once they have arisen.
