Jantzen, 2004-03-01 The pursuit of death and the love of death has characterized Western culture from Homeric times through centuries of Christianity taking particular deadly shapes in Western postmodernity This necrophilia shows itself in destruction and violence in a focus on other worlds and degradation of this one and in hatred of the body sense and sexuality In her major new book project *Death and the Displacement of Beauty* Grace M Jantzen seeks to disrupt this wish for death opening a new acceptance of beauty and desire that makes it possible to choose life *Foundations of Violence* enters the ancient world of Homer Sophocles Plato and Aristotle to explore the genealogy of violence in Western thought through its emergence in Greece and Rome It uncovers origins of ideas of death from the beautiful death of Homeric heroes to the gendered misery of war showing the tensions between those who tried to eliminate fear of death by denying its significance and those like Plotinus who looked to another world seeking life and beauty in another realm *Arete and the Odyssey's Poetics of Interrogation* Justin Arft, 2022-09-01 *Arete and the Odyssey's Poetics of Interrogation* explores how the enigmatic Phaeacian queen Arete is at the heart of an epic scale poetics of interrogation used throughout the *Odyssey* to negotiate Odysseus kleos or epic renown Arete's interrogation of Odysseus has been especially problematic in scholarship but diachronic and synchronic analysis of similar interrogations across Indo European Orphic and Greek epigrammatic corpora

show that the stranger's interrogation is a formula that demands performance and negotiation of status. Within the *Odyssey*, this interrogation is part of an intraformular network used to generate *kleos* and the queen's question initiates the longest and most complex negotiation of Odysseus's status in epic and memory. Arete's role as interrogator not only explains her strange authority and resonance with both Penelope and comparative afterlife figures but it also establishes a gendered agonistic tension between she and her husband Alkinoos that influences the structure, genre, and narratology of performances across the Phaeacian episode. This book reinterprets the *Odyssey*'s central episode and challenges several assumptions about Nausikaa and Alkinoos' famed hospitality, even demonstrating how the Apologue is organized as a response to competing inquiries into Odysseus' fundamental status in tradition. The *Odyssey* ultimately navigates away from Odysseus' public reputation and roots his status in private memories, and Arete's carefully arranged interventions signal the larger process by which the *Odyssey* immortalizes Odysseus in poetry as a *nostos* hero. The queen and her question invite new applications of oral poetics that shed light on the structure, composition, and reperformance of the *Odyssey*.
