Of The Power Of The Intellect:

The Theory of Imagination in Classical and Mediaeval Thought Murray Wright Bundy, 1928 **The "Summa Theologica: 1:1. QQ.I-XLVIII. Treatise on the last end. Treatise on human acts. 1. Of those which are proper to man. 2. Of the passions, which are acts common to man and other animals** Saint Thomas (Aquinas), 1915

Spinoza's Geometry of Power Valtteri Viljanen, 2011-09-29 This work examines the unique way in which Benedict de Spinoza 1632 77 combines two significant philosophical principles that real existence requires causal power and that geometrical objects display exceptionally clearly how things have properties in virtue of their essences Valtteri Viljanen argues that underlying Spinoza's psychology and ethics is a compelling metaphysical theory according to which each and every genuine thing is an entity of power endowed with an internal structure akin to that of geometrical objects This allows Spinoza to offer a theory of existence and of action human and non human alike as dynamic striving that takes place with the same kind of necessity and intelligibility that pertain to geometry Viljanen's fresh and original study will interest a wide range of readers in Spinoza studies and early modern philosophy more generally **The "Summa Theologica" of St. Thomas Aquinas ...** Saint Thomas (Aquinas), 1922 The encyclopædic dictionary Robert Hunter, 1903 The Structure of the Mind Francesco Belfiore, 2004-04-08 This book represents a unique attempt to restore a new classical aspiration towards a philosophical system able to provide some certainties Using the distinctive feature of presenting an original and complete philosophical system author Francesco Belfiore diverges from the philosophical literature of the last decades which has been ever more focused upon specific fields Belfiore shows how failure to recognize this fundamental requirement of any philosophical inquiry has led to difficulties and misunderstandings in interpretation Through his novel approach Belfiore offers novel solutions in the fields of ontology knowledge language esthetics politics and ethics *Proclus and the Chaldean Oracles* Nicola Spanu, 2020-08-04 This volume examines the discussion of the Chaldean Oracles in the work of Proclus as well as offering a translation and commentary of Proclus Treatise On Chaldean Philosophy Spanu assesses whether Proclus exegesis of the Chaldean Oracles can be used by modern research to better clarify the content of Chaldean doctrine or must instead be abandoned because it represents a substantial misinterpretation of originary Chaldean teachings The volume is augmented by Proclus Greek text with English translation and commentary Proclus and the Chaldean Oracles will be of interest to researchers working on Neoplatonism Proclus and theurgy in the ancient world *Universal Dictionary of the English Language* Robert Hunter, Charles Morris, 1897 **The "Summa Theologica** Saint Thomas (Aquinas), 1922

Secrets of Power, Volume I Ingo Swann, 2018-09-02 Most books about power only deal with the societal formula of the few having power over the enormously larger powerless masses and which is mistaken as the so called natural order of power But it is not well understood that this formula also requires social conditioning measures aimed at perpetuating the continuing depowerment of the powerless so that the powerful CAN have power over them This in turn requires the societal

suppression and secretizing of all knowledge about the superlative human powers known to exist in individuals of the human species but which are socially forced into latency in most. It is broadly understood that power and secrecy go together but the scope of the web of secrets surrounding the larger nature of human powers is surprising. As discussed in this Volume I of **SECRETS OF POWER** empowerment is difficult if the larger panorama of societal power and depowerment are not more fully understood.

The Chautauquan, 1883 *Philosophy, Science and Exegesis in Greek, Arabic and Latin Commentaries*
Peter Adamson, Han Baltussen, Martin William Francis Stone, 2004 This two volume Supplement to the Bulletin of the Institute of Classical Studies represents the proceedings of a conference held at the Institute on 27-29 June 2002 in honour of Richard Sorabji. These volumes which are intended to build on the massive achievement of Professor Sorabji's Ancient Commentators on Aristotle series focus on the commentary as a vehicle of philosophical and scientific thought.

L'Allogène Wolf-Peter Funk, 2004 Le trait intitulé L'Allogène et les révélations qu'il y a de la part de trois divins. Ce trait appartient à un courant qui a dû se développer après 220 de notre ère puisque il est inconnu d'Irène et d'Hippolyte probablement en Occident. Vers 300 Porphyre dans sa Vie de Plotin déclare que le philosophe s'en prit certains gnostiques qui produisaient des apocalypses de Zoroastre de Zostrien de Nicothée d'Allogène de Messos et d'autres figures du même genre.

16 La plupart des spécialistes pensent que les traités Allogène et Zostrien retrouvés à Nag Hammadi NH XI 3 et VIII 1 doivent être identifiés aux révélations mentionnées par Porphyre. L'Allogène appartient à un ensemble de écrits signés sous l'appellation de traités platonisants sythiens qui comprend outre les deux traités connus de Porphyre les Trois Stèles de Seth NH VII 5 et Marsan's NH X. Ces quatre traités partagent une métaphysique et une ontologie caractéristiques de Plotin et des néoplatoniciens tardifs ainsi que de certaines sources néoplatoniciennes. Les particularités linguistiques et les nombreuses difficultés que présente le texte copte de L'Allogène indiquent qu'il s'agit très certainement d'un ouvrage originellement composé en grec et dont le vocabulaire métaphysique d'une grande technicité a dû représenter un défi de taille pour ses traducteurs coptes. L'original grec a vraisemblablement été composé quelque part en Méditerranée orientale peut-être Alexandrie vers 240 pour ensuite aboutir à Rome au milieu du IIe siècle où il fut lu et réfut dans l'école de Plotin. C'est dire son importance pour l'histoire du gnosticisme et pour celle du platonisme. Le présent volume offre une introduction au traité, un texte copte nouvellement établi, une traduction française et un index verborum.

The Living Age, 1908 *The Improvement Era*, 1913 *The Philosophy and Science of Man as a Foundation for Ethics and Politics* Mortimer Jerome Adler, 1940 *God and Intelligence in Modern Philosophy*
Fulton John Sheen, 1925 **Theory of Medical Science. The Doctrine of an Inherent Power in Medicine a Fallacy, Etc** William R. DUNHAM, 1876 **Elements of Philosophy** Walter Henry Hill, 1877 **Proclus: Commentary on Plato's 'Republic'**, 2022-05-12 The commentary on Plato's Republic by Proclus d. 485 CE which takes the form of a series of essays is the only sustained treatment of the dialogue to survive from antiquity. This three volume edition presents the first complete

English translation of Proclus text together with a general introduction that argues for the unity of Proclus Commentary and orients the reader to the use which the Neoplatonists made of Plato's Republic in their educational program Each volume is completed by a Greek word index and an English Greek glossary that will help non specialists to track the occurrence of key terms throughout the translated text The second volume of the edition presents Proclus essays on the tripartite soul and the virtues female philosopher rulers and the metaphysics and epistemology of the central books of the Republic The longest of the essays in Volume II interprets the nature and significance of the marriage number whose miscalculation leads to the degeneration of the ideal city state
