**On Reincarnation** Lamb Books,2018-05-18 Abraham lived once Isaac lived once Jacob lived once You shall live once I who am God took on flesh once and will not take it on a second time for God too respects order And the order of human life is this For a spirit to be fused to flesh to make man like God who is not flesh but spirit not animal but supernatural

For the flesh when it declines in its evening to fall like a slough and covering into the nothingness from which it was taken and the spirit to return to its life Blessed if it lived Damned if it perished for having made the flesh its lord instead of making God the lord of its spirit For that spirit from the hereafter whose details you uselessly wish to know without contenting yourselves with believing in its existence to wait with a fearful trembling or a joyful thrill to see the flesh rise again to clothe itself therein once again on Earth s last day and to plunge with it into the abyss or penetrate into Heaven also glorified in matter with which you have overcome because it has been your natural enemy changed into a supernatural ally by you But how could you take on one flesh at the time of my sublime review and go to condemnation or glory with it if each spirit had many fleshly existences And which would it choose from among them The first or the last And how could you invoke the blessed if they were already reincarnated And how could you call your deceased yours if at that moment they were already the children of others And life Oh life once over never returns You are given an hour of eternity a moment of eternity to conquer Eternity I give you time This is at once love and justice What would you say if I struck you at the first mistake You would say Why Lord If You had given me time to reflect I would have repented I leave you time You are at fault one two ten seventy times and I could strike you I give you time So that you cannot say to Me You did not show benignity

**Signs of Reincarnation** James G. Matlock,2019-06-15 Signs of Reincarnation provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research Matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology This book offers students scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives *The Theosophist* ,1888

*Five Lectures on Reincarnation* Swami Abhedananda,2019-11-25 In Five Lectures on Reincarnation Swami Abhedananda offers a profound exploration of the concept of reincarnation weaving together elements of Vedantic philosophy and modern spiritual thought The book is structured as a series of lectures each delving into different aspects of the soul s journey through multiple lifetimes thus drawing on both ancient Hindu texts and contemporary metaphysical discussions Abhedananda employs a clear accessible literary style that balances philosophical rigor with an engaging narrative encouraging readers to contemplate the implications of karma and the continuity of the soul across various incarnations Swami Abhedananda a disciple of the renowned Swami Vivekananda was a pivotal figure in introducing Eastern philosophical concepts to Western audiences during the late 19th and early 20th centuries His extensive travels and lectures throughout the United States and Europe helped shape the discourse on spirituality making abstract principles of reincarnation relatable and applicable to modern seekers Drawn from his deep understanding of Vedanta his writings reflect a synthesis of Eastern

**Five Lectures on Reincarnation** Swami Abhedananda,2020-03 Every voluntary or involuntary action of the body sense or mind must correspond to the dormant impressions stored up in the subtle body Although growth the process of nourishment and all the changes of the gross physical body take place according to the necessarily acting causes yet the whole series of actions and consequently every individual act the condition of the body which accomplishes it nay the whole process in and through which the body exists are nothing but the outward expressions of the latent impressions stored up in the subtle body Upon these rests the perfect suitability of the animal or human body to the animal or human nature of one s impressions The organs of the senses must therefore completely correspond to the principal desires which are the strongest and most ready to manifest They are the visible expressions of these desires If there be no hunger or desire to eat teeth throat and bowels will be of no use If there be no desire for grasping and moving hands and leags will be useless Similarly it can be shown that the desire for seeing hearing etc has produced the eye ear etc If I have no desire to use my hand and if I do not use it at all within a few months it will wither away and die In India there are some religious fanatics who hold up their arms and do not use them at all after a few months their arms wither and become stiff and dead A person who lies on his back for six months loses the power of walking There are many such instances which prove the injurious effects of the disuse of our limbs and organs

**Five Lectures on Reincarnation** Swami Abhedananda,2014-11-11 by the law of natural selection involuntarily choose or be unconsciously drawn to as it were its suitable parents and will be born of them As for instance if I have a strong desire to become an artist and if after a life long struggle I do not succeed in being the greatest after the death of the body I will be born of such parents and with such environments as will help me to become the best artist The whole process is expressed in Eastern philosophy by the doctrine of the Reincarnation of the individual soul Although this doctrine is commonly rejected in the West it is unreservedly accepted by the vast majority of mankind of the present day as it was in past centuries The scientific explanation of this theory we find nowhere except in the writings of the Hindus still we know that from very ancient times it was believed by the philosophers sages and prophets of different countries The ancient civilization of Egypt was built upon a crude form of the doctrine of Reincarnation Herodotus says The

Egyptians propounded the theory
