## **Man The Choicemaker:**

Man the Choicemaker Elizabeth Boyden Howes, Sheila Moon, 1973 Through a series of accidents the cowardly potter becomes known as the bravest man in the Rajah s kingdom      **The Choicemaker** Elizabeth Boyden Howes, Sheila Moon, 1977      **Seizing the Essence** Hamilton Priddy, 2007-12-20 SEIZING THE ESSENCE is about the dynamics of Value that form mans concept of reality Human beings dont just passively experience the things and events that represent this journey through life they construct them intellectually from the sense of value that is intrinsic to all cognizant individuals We dont simply enjoy the finer things in life we aspire to them and when awed by the experience of great beauty or magnificence we want to identify with its source As the created agents of this source we intellectualize its value by experiencing it as differentiated reality Making value aware as representational objects in a relational world affirms the absolute value of our uncreated Essence The author believes that one of the tragedies of our materialistic age is that we have mistaken our differentiated amoral existence for ultimate reality with the result that we have lost much of our value sensibility With the possible exception of artists and musicians the mindset of most people today has been shaped by objectivists who insist that man is totally a product of biological and cultural evolution Although fueled by Darwins Origin of the Species in truth this ideology is the outcome of a 2000 year battle between Aristotelian empiricism and Platonic idealism that scientists claim to have won only in the last century In their zeal to renounce religion and spirituality the objectivists have thrown the baby out with the bathwater Selfness is today regarded as a myth of dubious origin and material reality is believed to be primary to ones awareness of it In SEIZING THE ESSENCE the author makes the case that the mind matter duality of Descartes and Kant has not been overcome by Science that all knowledge is proprietary to the self and that physical reality is an intellectual construct of Value which is the individuals perspective of Essence Since traditional logic is relational by fiat the author bases his cosmology on a principle first postulated by the 15th century logician Nicholas of Cusa which deals with a not other that is the coincidence of all otherness Instead of trying to describe the ineffable Cusas theory affords the philosopher a dialectic handle by which to relate finite experience to the Oneness of Essence This leads logically to a cosmology in which physical existence is a virtual reality created largely by man who is the cognizant agent of his estranged Essence Contrary to previous theories of natures essences there is but one Essence and it is the uncreated source of differentiated experience Starting with the fundamental premise that Essence is absolute and immutable the book unfolds an ontology whereby value can be understood as the essential link between the autonomous self and its uncreated source The central message of this book is that although values drive mankind it is mans free choices that determine the course of history Essentialism is a new and original philosophy that embraces the spirituality of Judeo Christianity and Eastern mysticism yet is grounded in a metaphysical cosmology that is non dogmatic logically plausible and far more vital to contemporary man In addition to chapters describing our real world mentality mans historical search for the stuff of reality a Cosmology of Essence and the

autonomous self the author offers A Modernists Guide to Values complete with a strategy for achieving an authentic society Included in the Appendix is an extended glossary of names and special terms that are relevant to the Philosophy of Essence

The Choice is Always Ours Dorothy Berkley Phillips,Elizabeth Boyden Howes,Lucille M. Nixon,1975 *Choices: Good Choices, Bad Choices and Blind Guesses* Catherine Barry,2015-09-23 A choice is just the first step of your future course In some cases we even take that step with our eyes closed Ever feel like you need a road map for your life Imagine how your students must feel when not only do they need a map they ve also never been taught how to read a map This session will take your students on a journey through the adventure of decision making It is designed to break down the common situations that children and teens alike find themselves in when facing choices Handbook of Choice Modelling Stephane Hess,Andrew Daly,2024-06-05 This thoroughly revised second edition Handbook provides an authoritative and in depth overview of choice modelling covering essential topics range from data collection through model specification and estimation to analysis and use of results It aptly emphasises the broad relevance of choice modelling when applied to a multitude of fields including but not limited to transport marketing health and environmental economics *The Age of Choice* Sophia Rosenfeld,2025-02-04 Winner of the Istv n Hont Book Prize Institute of Intellectual History Finalist for the Cundill History Prize A New York Times Notable Book of the Year A sweeping history of the rise of personal choice in the modern world and how it became equated with freedom Choice touches virtually every aspect of our lives from what to buy and where to live to whom to love what profession to practice and even what to believe But the option to choose in such matters was not something we always possessed or even aspired to At the same time we have been warned by everybody from marketing gurus to psychologists about the negative consequences stemming from our current obsession with choice It turns out that not only are we not very good at realizing our personal desires we are also overwhelmed with too many possibilities and anxious about what best to select There are social costs too How did all this happen The Age of Choice tells the long history of the invention of choice as the defining feature of modern freedom Taking readers from the seventeenth century to today Sophia Rosenfeld describes how the early modern world witnessed the simultaneous rise of shopping as an activity and religious freedom as a matter of being able to pick one s convictions Similarly she traces the history of choice in romantic life politics and the ideals of human rights Throughout she pays particular attention to the lives of women those often with the fewest choices who have frequently been the drivers of this change She concludes with an exploration of how reproductive rights have become a symbolic flashpoint in our contemporary struggles over the association of liberty with choice Drawing on a wealth of sources ranging from novels and restaurant menus to the latest scientific findings about choice in psychology and economics The Age of Choice urges us to rethink the meaning of choice and its promise and limitations in modern life
