On Black Men:

On Black Men David Marriott, 2000 Mutilated dying or dead black men play a role in the psychic life of culture From national dreams to media fantasies there is a persistent imagining of what black men must be This book explores the legacy of that role particularly its violent effect on how black men have learned to see themselves and one another David Marriott draws upon popular culture ranging from lynching photographs to current Hollywood film as well as the ideas of key thinkers including Frantz Fanon Richard Wright James Baldwin and John Edgar Wideman to reveal a vicious pantomime of unvarying reification and compulsive fascination of whites looking at themselves through images of black desolation and of blacks dispossessed by that process [On Black Men](#) D. mortality rates Much of the extant literature is over 10 years old and doesn't account for social determinants of health perceptions of health status as well as social justice implications that can affect the health outcomes of this historically oppressed population including structural and systemic racism as well as police brutality and gun violence The book's 13 chapters represent a diversity of thought and perspectives of experts reflective of various disciplines and are organized in four sections Part I Racial Disparities and Black Men Part II Black Masculinity Part III Black Men in Research Part IV Social Justice Implications for Black Men's Health Black Men's Health serves as a core text across multiple disciplines and can be utilized in undergraduate and graduate level curriculums It equips students and educators in social work nursing public health and other helping professions with the knowledge and insight that can be helpful in their future experiences of working with Black men or men from other marginalized racial ethnic groups and their families social support systems Scholars practitioners and academics in these disciplines as well as community based organizations who provide services to Black men and their families state agencies and evaluation firms with shared interests also would find this a useful resource

Contemporary Black Men's Fiction and Drama Keith Clark, 2001 Demonstrating the extraordinary versatility of African American men's writing since the 1970s this forceful collection illustrates how African American male novelists and playwrights have absorbed challenged and expanded the conventions of Black American writing and with it Black male identity From the John Henry Syndrome a definition of Black masculinity based on brute strength or violence to the submersion of Black gay identity under equations of gay with white and Black with straight the African American male in literature and drama has traditionally been characterized in ways that confine and silence him Contemporary Black Men's Fiction and Drama identifies the forces

that limit black male discourse including traditions established by iconic African American male authors such as James Baldwin Richard Wright and Ralph Ellison This thoughtful volume also shows how contemporary black male authors use their narratives to put forward new ways of being and knowing that foster a more complete sense of self and more humane and open ways of communicating with and relating to others In the work of Charles Johnson Ernest Gaines and August Wilson contributors find paths toward broader less rigid ideas of what black literature can be what the connections among individual and communal resistance can be and how black men can transcend the imprisoning models of hyper masculinity promoted by American culture Seeking greater spiritual connection with the past John Edgar Wideman returns to the folk rituals of his family while Melvin Dixon and Brent Wade reclaim African roots and traditions Ishmael Reed struggles with a contemporary cultural oppression that he sees as an insidious echo of slavery while Clarence Major s experimental writing suggests how black men might reclaim their own voices in a culture that silences them Taking in a wide range of critical theoretical cultural gender and sexual concerns Contemporary Black Men s Fiction and Drama provides provocative new readings of a broad range of contemporary writers

This research project aims to interrogate the rationale behind Black men s disproportionate engagement in crime and violent behaviors To do this I aim to debunk hypermasculinity as the media and Police s predominate rationale for Black men s participation in violence and crime Although narratives of hypermasculinity have become more insidious across time and space since the slavery era they still contribute to the pervasive perception of Black men as savage hoodlums who are undeserving of success outcomes The concept of hypermasculinity asserts that Black men have a biological innate disposition to incite harm To deracialize and demystify current stigmas of hypermasculinity that plague Black men I conducted fifteen in depth interviews of Black identifying young men from the Southside of Chicago who have participated in illicit behaviors Due to the proliferation of gun violence that is negatively impacting Black men s life chances Chicago emerges as an important sociological site In addition

the Southside of Chicago is a case study for understanding larger social phenomena such as the systematic killing of marginalized people and urban violence and inequity From my interviews I discovered how these men s efforts to combat the war enacted against them by racist structures and institutions were circumscribed by the racialized pigeonhole of the label hypermasculine By exposing Black men s rationale for engaging in illicit behaviors contemporary race scholars will have a new avenue for examining the social context as a production site for their uneven engagement Moreover Black men s motivations for engaging in illicit behaviors will provide a nuanced lens to understanding the multifactorial and contingent nature of criminality I argue that Black men s disproportionate engagement in gun violence and crime is out of necessity and not desire The hypotheses that ground this argument are threefold 1 The labeling process associated with hypermasculinity is racialized and predisposes Black men to a life of crime and failure 2 Hypermasculinity as a rationale is inherently flawed because it does not include a discussion of Black men s social context as contributory to their engagement in gun violence and crime and 3 Combatting the war on Black men requires a city wide restructuring of how finances and other resources are allocated along with adaptations to public penal and education policies If we accept these premises to be true Black men are finally able to move beyond the stereotype threats of hypermasculinity and emerge as producers of knowledge and positive contributors to society From my interviews I found that sweeping narratives of Black men as hypermasculine negatively impact the ways in social welfare education and penal policies are written which insidiously shape Black men s inability to garner success outcomes Through exposing how the laws enforced by of our alleged fair and equal justice system are implicitly biased I argue that Black men have become targets of enduring structural racism and a new form of mass imprisonment called neoslavery

Are Black Men Doomed? Alford A. Young, Jr.,2018-01-16 Life for too many African American men is a battle with extreme disadvantage a fight for survival and a struggle for dignity in a society which labels them a problem For more than 30 years most of the effort put toward addressing the crisis of Black men has centered on what they must do to improve their condition Without neglecting that perspective Are Black men doomed radically shifts the focus This urgent intervention explores how a damning portrait of Black men as incorrigibly pernicious has been built and persists and how the voice of these men themselves has been ignored It astutely argues that improving the prospects for Black men requires that society fully come to terms with the narrow and incomplete vision it has sustained about these men It then shows us the means to hear understand and value them offering a new vision rooted in reinterpretation and redemption
