On Metaphysics And Poetry:

Five Metaphysical Poets Joan Bennett, 1966 **Metaphysical Wit** A. J. Smith, 1992-01-09 English metaphysical poetry from Donne to Marvell is conspicuously witty A J Smith seeks the central importance of wit in the thinking of the metaphysical poets and argues that metaphysical wit is essentially different from other modes of wit current in Renaissance Europe Formal theories and rhetorics of wit are considered both for their theoretical import and their appraisals of wit in practice Prevailing fashions of witty invention are scrutinized in Italian French and Spanish writings so as to bring out the nature and effect of various forms of wit conceited hieroglyphic transformational and others from which the metaphysical mode is distinguished He locates the basis of Renaissance wit in the received conception of the created order and a theory of literary innovation inherent in Humanist belief which led to novel couplings of time and eternity body and soul man and God Yet he finds that metaphysical wit distinctively works to discover a spiritual presence in sensible events and he traces its demise in the 1660s to changes in the understanding of the natural world associated with the rise of empirical science

Four Metaphysical Poets John Donne, Douglas Brooks-Davies, 1997 This anthology poems by John Donne George Herbert Andrew Marvell and Thoma **Five Metaphysical Poets** Joan Bennett, *Metaphysics and Poetry* Hugh MacDiarmid, Walter Perrie, 1975 **John Donne's Metaphysical Love Poetry** Sabine Strebel, 2019-03-25 Seminar paper from the year 2018 in the subject Didactics for the subject English Literature Works grade 2 0 Johannes Gutenberg University Mainz language English abstract Most people would think of Shakespeare if they were asked for the most famous poet of the Elizabethan era He invented the Shakespearean Sonnet after all which is probably the only type of Renaissance poem German students have to read during their school career However Shakespeare was not the only author of sonnets during this time Someone who deserves just as much acknowledgement in this area is John Donne who had an especially meteoric comeback in 1921 due to the publication of Eliot s essay *The Metaphysical Poets* Roland Greene an editor for the Princeton Encyclopedia of Poetry and Poetics shows in the encyclopedia that many scholars actually consider Donne to be one of the greatest poets in the English language His work focused on themes of love and devotion both the physical and spiritual kinds The latter can be also found in his poem *A Valediction Forbidding Mourning* In this poem Donne describes a situation every person who has fallen in love can relate to the lovers face an upcoming farewell Although the poem was written around 400 years ago it still addresses issues that can be found in several poems songs or other stories of our time Maybe it would be too easy to compare Donne s metaphysical love poetry to a current pop song since he elaborates this valediction with something resembling a catchy refrain a series of four metaphysical conceits where he unleashes all his rhetorical cleverness as Greene calls it What the title suggests and what also emerges upon a first reading is that the speaker wishes to forbid any mourning about the parting of the two lovers They appear strong and well prepared since their love outshines the love of dull sublunary lover s 13 But after further reflection and rereading the poem the reader can deduce

that the speaker is trying to cover up his worries and fears over the parting Baunlin raises the question of whether the last three stanzas in Donne s poem serve as a doubting promise that the speaker will return and a plea for the woman s continued faith

Five Metaphysical Poets Joan Bennett,1964-01-03 Mrs Bennett s Four Metaphysical Poets Donne Herbert Vaughan and Crashaw was issued under a new title in 1964 with an additional chapter on Andrew Marvell It is that text which is reprinted here In her study Mrs Bennett has analysed emphasised and illustrated the qualities of metaphysical poetry in general and the peculiarities of the individual poets She shows that if we retain the word metaphysical as a label for a poetic tradition it is as appropriate to Marvell as it is to Vaughan and more so than to Crashaw

The metaphysics of a metaphysical poet Lane Michael Sarasohn,1963 **The Revival of Metaphysical Poetry** Joseph Ellis Duncan,1959 The Revival of Metaphysical Poetry was first published in 1959 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The metaphysical style as expressed in its most distinguished and distinguishable form by the seventeenth century poet John Donne has had an increasing influence on latterday critics and poets Thus it is important to an understanding of literary history to examine this revival Professor Duncan traces the movement and analyzes changing interpretations of the style in the work of British and American poets and critics He shows that much of the new criticism and the metaphysical poetry of T S Eliot and that of the metaphysical style has thrived on fresh critical interpretation and vital poetic experimentation

Metaphysical Poetry Paul Negri, 2002-08-26 Includes such masterpieces as Donne's *Death Be Not Proud* Marvell's *To His Coy Mistress* plus works by George Herbert Henry Vaughan Richard Crashaw Francis Quarles and others Includes 2 selections from the Common Core State Standards Initiative [Scripture, Metaphysics, and Poetry](#) Robert MacSwain, 2016-04-01 This book offers a critical edition of arguably the greatest work of English theology in the 20th century Austin Farrer's *Bampton Lectures* published as *The Glass of Vision* in 1948 Farrer was an interdisciplinary genius who made original contributions to philosophy theology and biblical studies as well as to our understanding of the role of imagination in human thought and Christian doctrine According to Farrer the three primary themes of these lectures are scripture metaphysics and poetry individually and in relation to each other The lectures defend his famous theory of divine revelation through images rather than propositions or events a provocative account of the place of metaphysical reasoning in theology and a literary approach to the Biblical text that was decades ahead of its time and is still controversial *The Glass of Vision* has generated a rich and interesting interdisciplinary conversation that has lasted for decades starting with commentators such as Helen Gardner and Frank Kermode In addition to Farrer's full text this critical edition also contains an introduction to the significance and context of Farrer's thought and a selection of thirty years worth of commentary by leading British and European theologians and literary scholars David Brown Ingolf Dalferth Hans Haug Douglas Hedley David Jasper and Gerard Loughlin Of interest to literary and biblical scholars theologians and philosophers this book holds particular value for those exploring the nature of imagination in contemporary thought and scholarship [The Metaphysical Poets](#) Gerald Hammond, 1979-06-01 This is a Bloomsbury Academic title For our full Academic Catalogue please visit <https://www.bloomsbury.com/uk/academic> *European Metaphysical Poetry* Frank Warnke, 2011-10-01 **Early Modern Authorship and the Editorial Tradition** Aleida Auld, 2023-12-12 This volume adds a new dimension to authorship studies by linking the editorial tradition to the transformative reception of early modern authors and their works across time Aleida Auld argues that the editorial tradition provides privileged access to the reception of early modern literature informing our understanding of certain reconfigurations and sometimes helping to produce them between their time and our own At stake are

reconfigurations of oeuvre and authorship the relationship between the author and work the relationship between authors and the author's own role in establishing an editorial tradition Ultimately this study recognizes that the editorial tradition is a stabilizing force while asserting that it may also be a source of strange and provocative reconceptions of early modern authors and their works in the present day Scholars and students of early modern literature will benefit from this approach to editing as a form of reception that encompasses all the editorial decisions that are necessary to put forth a text
