

Types of Metaphors

Types	Explanation	Examples
Implied Metaphor	Suggests a comparison without stating it directly.	"The city's heartbeat echoed through its streets."
Sustained Metaphor	Extends throughout a passage, maintaining a consistent comparison.	"Time is a thief, stealing moments from our grasp."
Dead Metaphors	Once metaphorical expressions now common in everyday language.	"The clock is ticking."
Mixed Metaphors	Combines unrelated metaphors, leading to confusion.	"We're on thin ice, and it's a slippery slope."

Metaphor and Persuasion in Strategic Communication Federica Ferrari, 2018-10-10 This groundbreaking work adopts an alternative metaphor based approach to challenge unpack and redefine our understanding of persuasion and strategic communication and the extents to which they shape political discourse The book s theoretical and methodological grounding in metaphor allows for an alternative perspective on strategic communication but also a robust discussion of both persuasion and other kinds of related discursive processes at work in political communication including narrative identification and ideology The volume integrates case studies from prominent political discourses including those of George W Bush Jr Tony Blair and Barack Obama to highlight the crucial role of persuasion management and sustainability in the public sphere and the ways in which it might inform political action and change in a positive way Broadening our perception of the possibilities of persuasion and strategic communication this dynamic volume is key reading for students and scholars in communication studies political science rhetoric and cognitive linguistics

Finding Metaphor in Grammar and Usage Gerard J. Steen, 2007-11-14 Cognitive linguists have proposed that metaphor is not just a matter of language but of thought and that metaphorical thought displays a high degree of conventionalization In order to produce converging evidence for this theory of metaphor a wide range of data is currently being studied with a large array of methods and techniques Finding Metaphor in Grammar and Usage aims to map the field of this development in theory and research from a methodological perspective It raises the question when exactly evidence for metaphor in language and thought can be said to count as converging It also goes into the various stages of producing such evidence conceptualization operationalization data collection and analysis and interpretation The book offers systematic discussion of eight distinct areas of metaphor research that emerge as a result of approaching metaphor as part of grammar or usage language or thought and symbolic structure or cognitive process

Metaphors in Learner English Susan Nacey, 2013-11-15 This volume presents results from a corpus based investigation into the metaphorical production of foreign language learners comparing

texts written by Norwegian L2 learners of English with those written by British L1 students Three types of questions are addressed The first has empirically measured answers For example do L2 English writers produce more metaphors than L1 novice writers How frequent are novel metaphors in an L2 as compared with an L1 The second type has more subjective answers How creatively do L2 English learners employ metaphor Are they even expected to be able to produce metaphor at all The third type combines theoretical and methodological perspectives How is metaphorical creativity identified What is the potential role of metaphoric competence Most importantly how are metaphors identified To this end the newly developed Metaphor Identification Procedure is tested and critiqued This book is intended for metaphor researchers corpus linguists applied linguists and language educators

A Cognitive Theory of Metaphor Earl R. Mac Cormac,1985 In this book Earl Mac Cormac presents an original and unified cognitive theory of metaphor using philosophical arguments which draw upon evidence from psychological experiments and theories He notes that implications of this theory for meaning and truth with specific attention to metaphor as a speech act the iconic meaning of metaphor and the development of a four valued system of truth Numerous examples of metaphor from poetry and science are presented and analyzed to support Mac Cormac s theory *A Cognitive Theory of Metaphor* takes up three levels of explanation metaphor as expressed in surface language the semantics of metaphor and metaphor as a cogitive process and unifies these by interpreting metaphor as an evolutionary knowledge process in which metaphors mediate between minds and culture Mac Cormac considers and rejects the radical theory that all use of language is metaphorical however this argument also recognizes that the theory of metaphor may itself be metaphorical The book first considers the computational metaphor often adopted by cognitive psychology as an example of metaphor requiring analysis In contrast to three well known philosophical theories of metaphor the tension theory the controversion theory and the grammatical deviance theory it develops a semantical anomaly theory of metaphor based on a quasi mathematical hierarchy of words In developing the theory Mac Cormac makes much needed connections between theories of metaphor and more orthodox analytic philosophy of meaning including discussions of speech acts and the logic of fuzzy sets This semantical theory of explanation is then shown to be compatible with contemporary psychological theories of memory Earl R MacCormac is Charles A Dana Professor of Philosophy and Chairman of the Department of Philosophy Davidson College A Bradford Book
