Return To Aesthetics:

A Return to Aesthetics Jonathan Loesberg, 2005 *A Return to Aesthetics* confronts postmodernism's rejection of aesthetics by showing that this critique rests on central concepts of classical aesthetic theory namely autonomous form disinterest and symbolic discourse The author argues for the value of these concepts by recovering them through a historical reinterpretation of their meaning prior to their distortion by twentieth century formalism Loesberg then applies these concepts to a discussion of two of the most significant critics of the ideology of Enlightenment Foucault and Bourdieu He argues that understanding the role of aesthetics in the postmodern critique of Enlightenment will get us out of the intellectual impasse wherein numbingly repeated attacks upon postmodernism as self contradictory match numbingly repeated defenses Construing postmodern critiques as examples of aesthetic reseeing gives us a new understanding of the postmodern critique of the Enlightenment

Aesthetic Subjects
Pamela R. Matthews, David McWhirter, 2003 Recent calls for a return to aesthetics occur precisely at a moment when it is increasingly evident that nothing concerning aesthetics is self evident anymore Determined to recover the value of aesthetic experience for artistic cultural and social analysis the contributors to this volume prominent scholars in literature philosophy art history architecture history and anthropology begin from a shared recognition that ideological readings of the aesthetic

have provided invaluable insights in particular that analyses of aesthetics within historical and social contexts tell us a great deal about the experience of aesthetic encounters From multiple and complementary perspectives the contributors address topics as varied as Nabokov and Dickens Caravaggio and Shelley Winters gender and sexuality advertising and AIDS Taken together their essays constitute a sustained and multifarious effort to resituate aesthetic pleasure in the mixed impure conditions characteristic of every social practice and experience however privileged or marginalized and to ask what happens to the aesthetic if we consider it apart from or at least in tension with its historically dominant discursive formulations As such this volume establishes a renewed sense of aesthetic discourse and its usefulness as a tool for understanding culture
