Returning The Gift:

The Gift in the Economy and Society Stefan Kesting, Ioana Negru, Paolo Silvestri, 2020-12-28 Mainstream economics offers a perspective on the gift which is constructed around exchange axioms of self interest instrumental rationality and utility maximisation concepts that predominate within conventional forms of economic analysis Recognising the gift as an example of social practice underpinned by social institutions this book moves beyond this utilitarian approach to explore perspectives on the gift from social and institutional economics Through contributions from an international and interdisciplinary cast of authors the chapters explore key questions such as what is the relationship between social institutions on the one hand and gift exchange reciprocity on the other What are the social mechanisms that underpin gift and gift giving actions And finally what is the relationship between individuals societies gift giving and cooperation The answers to these questions and others serve to highlight the importance of the analysis of gift in economics and other social sciences The book also demonstrates the potential of the analysis of the gift to contribute to solving current problems for humanity at various levels of social aggregation This key text makes a significant contribution to the literature on the gift which will be of interest to readers of heterodox economics social anthropology philosophy of economics sociology and political philosophy

The Gift Aafke E. Komter, 1996 What moves us to give gifts to other people The Gift brings together perspectives on gift exchange and reciprocity from different social scientific disciplines The first part of this book contains anthropological and sociological classics on gift giving and reciprocity In the second part the focus is on social psychological theories and on empirical research on gift giving in Western society Finally the main concepts underlying gift exchange reciprocity self interest and altruism are discussed Here the focus is on fundamental assumptions about human nature Altruism and self interest turn out to be much more interwoven than we are inclined to think
