## Man Of Reason:

**Theater of Man** J. A. Fernandez Santamaria, 1998-01-01 Born in Spain and long time resident of Bruges Juan Luis Vives is one of the keenest and most neglected minds of the northern Renaissance A many sided intellect and critical observer of the contemporary scene Vives contribution includes treatises on metaphysics psychology education rhetoric logic religion and social reform And it is precisely the central premise of this monograph that what links these diverse works together and turns Vives literary production into a whole larger than the sum of its parts is the author s single minded commitment to the Socratic dictum that an unexamined life is not worth living But because man s Fall caused him to lose his pristine ability to accomplish that task as an individual he must now do it in the context of a God mandated man created institution society whose origins and evolution Vives explains in Stoic terms Building on a foundation of Socratic Aristotelian optimism and Augustinian pessimism he concludes that social man can indeed reach the bonitas which alone makes beatitude possible But at a price for Vives the Skeptic insists that man must forego the use of that ratio speculativa which seduces him into thinking that he can probe into nature s being and understand his own divine nature
