Process E. Frank Harrison, 1995 Rather than present decision making strictly as a quantitative science this text views it as a multidimensional process involving values psychology sociology social psychology and politics Using a process model a focus on the process of a decision rather than the outcome the book presents a variety of perspectives useful for making and evaluating decisions in all kinds of organizations Cybercrime and Cybersecurity in the Global South Charlette Donalds, Corlane Barclay, Kweku-Muata Osei-Bryson, 2022-04-05 The Global South is recognized as one of the fastest growing regions in terms of Internet population as well as the region that accounts for the majority of Internet users However It cannot be overlooked that with increasing connectivity to and dependence on Internet based platforms and services so too is the potential increased for information and cybersecurity threats and attacks Further it has long been established that micro small and medium enterprises MSMEs play a key role in national economies serving as important drivers of economic growth in Global South economies Yet little is known about information security cybersecurity and cybercrime issues and strategies

contextualized to these developing economies and MSMEs Cybercrime and Cybersecurity in the Global South Concepts Strategies and Frameworks for Greater Resilience examines the prevalence nature trends and impacts of cyber related incidents on Global South economies It further explores cybersecurity challenges potential threats and risks likely faced by MSMEs and governments of the Global South A major thrust of this book is to offer tools techniques and legislative frameworks that can improve the information data and cybersecurity posture of Global South governments and MSMEs It also provides evidence based best practices and strategies relevant to the business community and general Information Communication Technology ICT users in combating and preventing cyber related incidents Also examined in this book are case studies and experiences of the Global South economies that can be used to enhance students learning experience Another important feature of this book is that it outlines a research agenda to advance the scholarship of information and cybersecurity in the Global South Features Cybercrime in the Caribbean Privacy and security management Cybersecurity compliance behaviour Developing solutions for managing cybersecurity risks Designing an effective cybersecurity programme in the organization for improved resilience The cybersecurity capability maturity model for sustainable security advantage Cyber hygiene practices for MSMEs A cybercrime classification ontology

Managerial Decision Making Leadership Caroline Wang,2010-08-30 The modern manager faces a bewildering range of challenges every single day Their ability to make critical decisions often under pressure can directly determine the future success of the company and their career It is therefore surprising that so few managers take the time to learn the art of decision making In this groundbreaking book from Caroline Wang readers will learn that quality decision making is a competence that can be acquired according to a simple framework The framework is practical and easy to remember consisting of two acronyms GPA and IPO GPA for decision content quality Goal Priority Alternatives and IPO for decision process quality Information People Objective reasoning The book places emphasis on leading a team to make decisions even though the framework can be used for personal and individual decisions By using this common decision making framework managers and leaders will gain credibility and team support for the decision will confidently articulate promote and defend the decision and will have made the necessary preparations for successful implementation when the decision making process is complete This proven framework from one of Asia s most dynamic leadership experts will improve the quality of your decisions and change the way you do business

Business Strategy The Economist,Jeremy Kourdi,2015-05-26 The effectiveness of a good strategy well implemented determines a business future success or failure Yet history is full of strategic decisions big and small that were ill conceived poorly organized and consequently disastrous This updated guide looks at the whole process of strategic decision making from vision forecasting and resource allocation through to implementation and innovation Strategy is about understanding where you are now where you are heading and how you will get there There is no room for timidity or confusion Although the CEO and the board decide a company s overall direction it is the managers at all levels of the

organization who will determine how the vision can be transformed into action In short everyone is involved in strategy But getting it right involves difficult choices which customers to target what products to offer and the best way to keep costs low and service high And constantly changing business conditions inevitably bring risks Even after business strategy has been developed a company must remain nimble and alert to change and view strategy as an ongoing and evolving process The message of this guide is simple strategy matters and getting it right is fundamental to business success
