Abstract— Mathematical models of the processes of cleaning liquids from multicomponent contamination by filtration, as well as diffusion-mass transfer perturbations and the development of numerical-asymptotic methods for solving the corresponding nonlinear regularly and singularly perturbed boundary value problems are shown. The construction of automation systems of corresponding treatment systems and complexes on the basis of solving model problems is presented.

Keywords— mathematical model, purification, filtration, impurities, magnetic water purification, biological water purification, water lighting.

I. INTRODUCTION

As a rule, when modeling fluid purification processes by filtering through porous [1] medium is being considered filters with uniform loading of a constant section in the mode of constant filtering speed. Besides filtering down the grain size with decreasing velocity along decreasing velocity – these are generally recognized methods of intensifying the work of filter facilities that are widely used in practice (separate attempts to consider uniformity of filter loading cannot be considered satisfactory because the extreme idealization of the relevant assumptions) [2]. Not installed structure of the coefficients appearing in mathematical models, as a function of the loading parameters, characteristics of the source fluid and its impurity particles, filter speeds, characteristics of the precipitate that is formed, etc.

The concentration of impurity particles at the inlet of the filter is almost always considered constant, although in real conditions, it usually changes. Impurities of filtered liquids are considered to be monodisperse and non-interacting, while they are almost always polydisperse and may interact under certain conditions. Account diffusions and mass transfer components don't take into, which, under certain conditions, may be significant. (For porous filter materials with a large pore conduction coefficient, in many cases, diffusion and mass transfer and reverse effects can be signification). There are no mathematical models that take into account the interaction of

impurity particles during filtration. There are no mechanisms for creating automated control systems based on existing mathematical models.

II. ANALYSIS OF PREVIOUS STUDIES

In most cases [3–4], the tasks in question contained one-component process characteristics, but, as practice shows, contamination is multicomponent and depends on many factors, leading to entirely new, complicated tasks.

III. STATEMENT OF THE PROBLEM

Since most sewage treatment plants operate on manual control, this results in reduced productivity, increased cost of services, and "human factor". Automation of water treatment plants will allow to reduce labor costs for maintenance in increase of reliability of work of plants, to improve technical and economic indicators at the expense of optimization and intensification of technological processes, to provide water of guaranteed quality. Automatic filtering [5] of the filters results in a reduction of 10-25% present of specific and total costs of chemical reagents in water for their own use. Introduction of automation of management of water treatment plants allow 2-3 times to increase the productivity of these installations without capital costs for technological equipment in construction, which is the main factor that determines the feasibility of introducing of systems of automation of water treatment plants.

IV. THE MAIN MATERIAL OF THE ARTICLE

Automated systems of magnetic (fig. 1-2), biological (fig. 3) water purification are developed in the work.

Mathematical Modeling For Water Pollution Control Processes Introduction

Mathematical Modeling For Water Pollution Control Processes Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Mathematical Modeling For Water Pollution Control Processes Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Mathematical Modeling For Water Pollution Control Processes : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Mathematical Modeling For Water Pollution Control Processes : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Mathematical Modeling For Water Pollution Control Processes Offers a diverse range of free eBooks across various genres. Mathematical Modeling For Water Pollution Control Processes Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Mathematical Modeling For Water Pollution Control Processes Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Mathematical Modeling For Water Pollution Control Processes, especially related to Mathematical Modeling For Water Pollution Control Processes, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Mathematical Modeling For Water Pollution Control Processes, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Mathematical Modeling For Water Pollution Control Processes books or magazines might include. Look for these in online stores or libraries. Remember that while Mathematical Modeling For Water Pollution Control Processes, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Mathematical Modeling For Water Pollution Control Processes eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Mathematical Modeling For Water Pollution Control Processes full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Mathematical Modeling For Water Pollution Control Processes eBooks, including some popular titles.

FAQs About Mathematical Modeling For Water Pollution Control Processes Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Mathematical Modeling For Water Pollution Control Processes is one of the best book in our library for free trial. We provide copy of Mathematical Modeling For Water Pollution Control Processes in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Mathematical Modeling For Water Pollution Control Processes. Where to download Mathematical Modeling For Water Pollution Control Processes online for free? Are you looking for Mathematical Modeling For Water Pollution Control Processes PDF? This is definitely going to save you time and cash in something you should think about.
