Mathematics In Action Maths In Action:

Mathematics in Action Consortium for Foundation Mathematics,2003-05 This text is based on standards in the AMATYC Crossroads document The first in a three book series this text presents mathematical concepts and skills through relevant activities derived from real life situations These activities are meaningful because they illustrate how mathematics arises naturally from real world situations and problems Prealgebra Problem Solving is based on the assumption that you learn mathematics best by deriving concepts themselves in a meaningful context Therefore the text takes a collaborative approach to learning Take an active role in your own learning by working in groups thereby developing communication skills a sense of independence and a can do attitude about mathematics Technology is integrated throughout the book as appropriate so that you learn to interpret real life data numerically and symbolically Though the book is driven by the activities there is a significant amount of practice of skill based content through the many Skills Checks What Have I Learned and How Can I Practice exercises Maths in Action Plus ,2002 Maths in Action ,1996 **Primary Maths in Action** Edward C.
