My Search For The Afterlife:

My Search for the Afterlife Dennis Spalding, Sean Spalding, 2005-06 Nightly Night Mares is a book full of short horror stories From ghosts to monsters to psycho murderers these stories are sure to send chills down your spine You ll go through a haunted forest spooky cemeteries and haunted houses You ll receive a strange gift that allows you to see the past and you ll play a video game that brings you right into the game You ll hide from a psycho of two and you ll have nightmares you can not awake from You ll come face to face with an ancient monster and every night before you can go to sleep you ll check under your bed before turning out the lights You will meet some spooky ghosts and maybe even become one yourself At the end of the book you ll go on a ghost hunt where you ll decide your own fate as you choose your own path These stories are sure to haunt your dreams or should I say nightmares *My Search for the Afterlife* Dennis Spalding, 2005-06-30 A father takes a journey into the afterlife in search of a son he lost in 1993 He becomes aware of clues and information in the form of numbers through a world renowned medium to help him on his travels These numbers represent the dates of his son s birth and ultimate death as well as a special number the two shared their last visit together At the end of his journey the father soon realizes a new journey has just begun He and his son will travel together using mediums and other outside sources to let the world know that life truly goes on after death *Course Corrections to Faith and Identify the Real Gospel Authors* John Zavicar, 2022-07-19 The author believed he was a saved Christian and never doubted he was going to heaven Recently during a traumatic surgery that nearly killed him God took him to hell to show him his true eternal destination After surgery and during recovery John started working with the Holy Spirit to understand why God sent him to visit hell He realized it was because he hadn t wholeheartedly accepted the story of Jesus Many of the Biblical Gospels never made sense to John and he couldn t fully commit to Jesus Read John s story to find out how God worked in his life to identify the real authors of the Gospels and how this solidified his faith Following this investigation John committed 100% to Jesus Apply the five step process he describes to firm up your faith and eliminate your doubts in Jesus just as he did [Soul Search](#) David Darling, 2012-08 What happens when we die Does everything we are just stop Is consciousness lost forever Or does some vital spark inside us a spirit or a soul live on We find it almost impossible to think about not having a mind of our awareness being snuffed out like a candle Yet the stark fact is that within a century or so everyone alive today all six billion of us will be dead Humans are the only creatures on earth that know they are going to die But that foreknowledge has come fairly recently and it flies in the face of four billion years of evolution Those eons have genetically conditioned us to do all we can to preserve ourselves and our kin The result is that we are caught in a dilemma We are programmed to survive by our genes yet made painfully aware of our mortality by our forward looking brain If we admit that death is inevitable then our will to survive may be fatally weakened On the other hand if we deny death we have to turn a blind eye to a patent fact of the real world Only one avenue of escape is possible belief in an afterlife With this we can face the nightmare that death poses to the

rational mind We distance ourselves from death by institutionalizing it Whereas in earlier times most people spent their last days at home in the bosom of family and friends today four fifths of us are removed to hospitals or nursing homes We are hidden from the gaze of the young and healthy and tended to by strangers As the end approaches we are discreetly moved to wards for the terminally ill and plugged into life support machines Technology takes over And when we do eventually die it is often the inadequacy of the equipment or the shortcomings of the treatment that are blamed Instead of accepting death as a natural and inevitable fact of life we are in danger of convincing ourselves that given further medical advances we shall be able to stave it off for as long as we like Some people want to achieve immortality through their works or their descendants said Woody Allen I want to achieve it through not dying Now for the first time science seems to be holding out the slender hope of cheating death Already some of our vital parts can be replaced with natural or synthetic substitutes In time it seems the transplant surgeon will be able to do for a human being what any competent mechanic in a well equipped garage can do for a car

Our Search for an Afterlife Stuart Holland,1993

[Searching for Eternity](#) Donald R. Morse,2000 What happens when we die Do we simply cease to exist with our consciousness obliterated for all eternity Or do we have an enduring soul that can continue to experience awareness and some form of ongoing life Does God exist Without a creator how can the universe exist What is the purpose of the universe and what is its ultimate fate Does our behavior in day to day life really influence what happens to us after we die Why do many people believe in a heaven and a hell What is the basis of these beliefs Should we be anxious about our death or just enjoy life in the here and now Can these ultimate mysteries be solved by science What does science already know about the mysteries of creation Sooner or later all of us will face the stark reality of death Many people go through life with an increasing awareness and increasing anxiety about their eventual fate Dr Don Morse a scientist who believed in the absolute finality of death did too Then his near death experience led him on a quest to uncover what science knows about the nature of death Dr Morse s subsequent spiritual journey led him through the entire realm of science and religious beliefs until he came to an

inescapable conclusion Some form of an afterlife must exist Join Dr Morse as he summarizes the vast research and data leading to this conclusion Near death and out of body experiences experiments creating apparitions research attempting to weight the soul and the wide range of ancient and modern spiritual concepts are all covered in this masterful comprehensive scientific quest for truth back cover

Vibrant Death Nina Lykke,2021-12-16 *Vibrant Death* links philosophy and poetry based corpo affectively grounded knowledge seeking It offers a radically new materialist theory of death critically moving the philosophical argument beyond Christian and secular mechanistic understandings The book s ethico political figuration of vibrant death is shaped through a pluriversal conversation between Deleuzean philosophy neo vitalist materialism and the spiritual materialism of decolonial queerefeminist poet and scholar Gloria Anzaldua The book s posthuman deexceptionalizing of human death unfurls together with a collection of poetry and autobiographical stories They are analysed through the lens of a posthuman queerefeminist revision of the method of autophenomenography phenomenological analysis of autobiographical material Nina Lykke explores the speaking position of a mourning queerefeminine I who contemplates the relationship with her dead beloved lesbian life partner She reflects on her enactment of processes of co becoming with the phenomenal and material traces of the deceased body and the new assemblages with which it has merged through death s material metamorphoses becoming ashes through cremation and becoming mixed with algae sand when the ashes were scattered across a seabed made of fiftyfive million year old fossilized algae It is argued that the mourning I s intimate bodily empathizing theorized as symphysizing with her deceased queermasculine beloved life partner facilitates the processes of vitalist material and spiritual material co becoming and the rethinking of death from a new and different perspective than that of the sovereign philosophical subject

Faith and Reason Carmel Paul Attard,2020-12-28 As a Christian you might have asked yourself questions like How could a benevolent God our Father punish anyone in fire eternally How could billions of non members of my church all be going to hell How can

there be three Gods in one God How can Jesus be both human and divine Why is the kingdom of God in heaven but we pray for it to come on earth Why is the Bible infallible when it s littered with textual contradictions The talking serpent clearly relegates Adam and Eve s story to the realm of tales Since they never existed how could they have committed original sin So how could we inherit it And what did Jesus need to redeem us from It s been almost two thousand years will Jesus ever come back to earth How can Jesus be inside the Eucharist Faith and Reason shows why and how we ve come to believe such oddities The truth will set you free John 8 32 NIV No Good-byes, My Search Into Life Beyond Death Adela Rogers St. Johns,1981 **A Spirited Anthropology for Avatars, Heroes, and Assorted Undead** Tim Posada,2025-12-11 This book interrogates the body through theological anthropology s concern for the soul agency evil and the image of God across media examples In Search of Home Noragh Jones,1998 In answer to the question What does home mean for women of today the author records the conversations she has had with women living through serial relationships single parents lesbian couples divorced and separated individuals women left alone in old age travellers and creative solitaries Their stories reveal how each one attempts to create her own version of home This may sometimes bear little resemblance to tradition but all show a path travelled through experience towards emotional and moral maturity **Human Behavior** ,1978 *Science Vs. Religion* David Turell,2004 Science vs Religion shows that the scientific discoveries of the past 150 years prove God exists beyond a reasonable doubt Our universe is carefully designed to allow life and human development The universe started with a Big Bang the beginning of space and time There is no before before the Bang and science does not know what caused it Darwin s Theory of Evolution appears to do away with God but there is enormous controversy among Darwin scientists as to how evolution works Other scientists raise critical objections Darwinism is not proven Scientists don t know how life got started because living matter even single celled forms have been found to be extremely complex This book proposes for those who have faith in God and for those who have chosen not to accept God on faith if they study scientific discoveries they will find overwhelming evidence of the Hand of God Quaternion James M. Mellard,1978 *My China* Kylie Kwong,2007 A culinary tour of modern day China and Tibet from celebrated Australian chef Kylie Kwong *In Search of Naunnya's Grave* Nick Trujillo,2004 Collecting narratives of his grandmother s life communication researcher NickTrujillo learns how family members use stories to define the family s sense of itself and create collective views on intergenerational relations social history gender class and ethnicity in this experimental ethnography **Religious Diversity Today** Jean-Guy A. Goulet,Liam D. Murphy,Anastasia Panagakos,2015-12-01 This insightful three volume set examines faith through the social and cultural perspective of anthropology sociology and religious studies shedding light on the role of religion in the human experience Why is human suffering and the existence of evil part of the human experience How does religious doctrine establish one s identity In what ways does religion interact with and shape the social order This thought provoking work ponders these questions and explores the concept of religion from various perspectives as a tool for self and community based spiritual

awareness as a set of practices that translates faith into interaction with others and as a cornerstone of society for those who seek to harness or hinder its influence. Written in accessible and inviting language, each volume focuses on a particular dimension of religion. The first book examines religious experience in the modern world and explores suffering in religious faiths; the second volume centers around ritual and pilgrimage; and the last book analyzes the controversial relationship between religion and societies. The content features such thought-provoking topics as death and green burials, sexuality and sex trade, and how and why evil manifests in the human experience.
