

The background is a dense, textured composition of various shades of blue, brown, and grey, resembling a collage or a heavily layered painting. A thin, dark horizontal line runs across the middle of the image, from which several dark, leaf-like shapes are suspended, hanging downwards. The overall effect is one of depth and complexity.

Kutzinski,2012-09-18 The poet Langston Hughes was a tireless world traveler and a prolific translator editor and marketer Translations of his own writings traveled even more widely than he did earning him adulation throughout Europe Asia and especially the Americas In *The Worlds of Langston Hughes* Vera Kutzinski contends that for writers who are part of the African diaspora translation is more than just a literary practice it is a fact of life and a way of thinking Focusing on Hughes s autobiographies translations of his poetry his own translations and the political lyrics that brought him to the attention of the infamous McCarthy Committee she shows that translating and being translated and often mistranslated are as vital to Hughes s own poetics as they are to understanding the historical network of cultural relations known as literary modernism As Kutzinski maps the trajectory of Hughes s writings across Europe and the Americas we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored Madrid Havana Buenos Aires Mexico City and of course Harlem The result is a fresh look at Hughes not as a solitary author who wrote in a single language but as an international figure at the heart of a global intellectual and artistic formation *W.E.B. Du Bois and Race* Chester J. Fontenot, Mary Alice Morgan,2001 This collection of essays emerged from a symposium held at Mercer University which examined the ways in which W E B Du Bois s theories of race have shaped racial discussion and public policy in the twentieth century The essays also examine the application of Du Bois s theories to the new

millennium as well as his contributions to the study of the humanities

The Routledge Companion to African American Art History Eddie Chambers, 2019-11-12 This Companion authoritatively points to the main areas of enquiry within the subject of African American art history The first section examines how African American art has been constructed over the course of a century of published scholarship The second section studies how African American art is and has been taught and researched in academia The third part focuses on how African American art has been reflected in art galleries and museums The final section opens up understandings of what we mean when we speak of African American art This book will be of interest to graduate students researchers and professors and may be used in American art African American art visual culture and culture classes
