Management Decision Systems Computer Based Support For Decision Making

Donald W. Kroeber, Hugh J. Watson

Management Decision Systems Computer Based Support For Decision Making:

Management Decision Systems Michael S. Scott Morton,1971 **Management Decision Systems** Michael S. Scott Morton,1973 Computer-based Information Systems Donald W. Kroeber,Hugh J. Watson,1984 *Systems That Support Decision Makers* Mark S. Silver,1991 Concerns computer based information systems that can affect the decision making behavior of their users It tells the reader how to describe these systems and how to differentiate one from the other Its main features are a broad definition of Decision Support Systems DSS a process view of decision making which leads to viewing DSS as interventions into the processes through which decisions are made and a descriptive rather than a prescriptive approach Expert Systems and Computer Aids to Decision-making, 1970-85 Karl Schneider,1986 *Handbook on Decision Support Systems 1* Frada Burstein,Clyde W. Holsapple,2008-01-22 Decision support systems have experienced a marked increase in attention and importance over the past 25 years The aim of this book is to survey the decision support system DSS field covering both developed territory and emergent frontiers It will give the reader a clear understanding of fundamental DSS concepts methods technologies trends and issues It will serve as a basic reference work for DSS research practice and instruction To achieve these goals the book has been designed according to a ten part structure divided in two volumes with chapters authored by well known well versed scholars and practitioners from the DSS community **Business Process Management** Michael Glykas,2012-09-18 Business Process Management BPM has been in existence for decades It uses complements integrates and extends theories methods and tools from other scientific disciplines like strategic management information technology managerial accounting operations management etc During this period the main focus themes of researchers and professionals in BPM were business process modeling business process analysis activity based costing business process simulation performance measurement workflow management the link between information technology and BPM for process automation etc More recently the focus moved to subjects like Knowledge Management Enterprise Resource Planning ERP Systems Service Oriented Architectures SOAs Process Intelligence PI and even Social Networks In this collection of papers we present a review of the work and the outcomes achieved in the classic BPM fields as well as a deeper insight on recent advances in BPM We present a review of business process modeling and analysis and we elaborate on issues like business process quality and process performance measurement as well as their link to all other organizational aspects like human resources management strategy information technology being SOA PI or ERP other managerial systems job descriptions etc We also present recent advances to BPR tools with special focus on information technology workflow business process modeling and human resources management tools Other chapters elaborate on the aspect of business process and organizational costing and their relationship to business process analysis organizational change and reorganization In the final chapters we present some new approaches that use fuzzy cognitive maps and a recently developed software tool for scenario creation and simulation in strategic management business process

management performance measurement and social networking The audience of this book is quite wide The first chapters can be read by professionals academics and students who want to get some basic insight into the BPM field whereas the remaining present more elaborate and state of the art concepts methodologies and tools for an audience of a more advanced level

Intelligent Decision-making Support Systems Jatinder N.D. Gupta, Guisseppi A. Forgionne, Manuel Mora T., 2007-03-30 This book will be bought by researchers and graduates students in Artificial Intelligence and management as well as practising managers and consultants interested in the application of IT and information systems in real business environment

Decision Making Sarojini Balachandran, 1987 **Handling Societal Complexity** Dorien DeTombe, 2015-02-24 This handbook for the Methodology of Societal Complexity describes the theoretical development of the field and lays the foundation for the application of the Compram Methodology in the context of addressing complex societal problems As such it offers a valuable resource for scientists practitioners politicians master and PhD students in the fields of methodology the social sciences operational research management and political science and for all others who are professionally involved in handling complex societal problems These problems are the kind that fill the front page of quality newspapers they have a huge impact on society involve a variety of phenomena and actors and are therefore difficult to handle The structured Compram Methodology provides sound guidelines for handling real life societal problems democratically sustainably and transparently Examples of the use of the Compram Methodology are provided in the domain of global safety with regard to healthcare economics climate change terrorism large city problems large technological projects and floods Complex societal problems must be treated as multi disciplinary multi actor multi level and often as multi continental issues As such they call for a multi disciplinary and multi actor approach that takes into account the emotional aspects of the problem and the problem handling process including the micro meso and macro level which can be accomplished using the methods models and tools from the field of the Methodology of Societal Complexity The Compram Methodology improves the problem handling process and increases the quality of interventions and therefore the quality of life Handling complex societal problems can reduce conflicts save money and ultimately even save lives Dorien J DeTombe is an internationally recognized expert and founder of the Theory of the Methodology of Societal Complexity and the Compram Methodology

Enhancing Computer-based Support for Managerial Decision Making National University of Singapore. Dept. of Information Systems and Computer Science, Chanindh Homsilpakul, 1987 *Encyclopedia of Decision Making and Decision Support Technologies* Adam, Frederic, Humphreys, Patrick, 2008-04-30 As effective organizational decision making is a major factor in a company s success a comprehensive account of current available research on the core concepts of the decision support agenda is in high demand by academicians and professionals Through 110 authoritative contributions by over 160 of the world s leading experts the Encyclopedia of Decision Making and Decision Support Technologies presents a critical mass of research on the most up to date research on human and computer support of

managerial decision making including discussion on support of operational tactical and strategic decisions human vs computer system support structure individual and group decision making and multi criteria decision making **Decision Making in Systems Engineering and Management** Patrick J. Driscoll, Gregory S. Parnell, Dale L. Henderson, 2022-10-25
