These *Readers* are part of the *Big Books* series, part of the Department of Basic Education's strategy to boost South African children's school performance.

They are designed to supplement the *Readers* textbooks and content provided in schools, with the aim of helping children to develop the pre-literacy skills and the fluency that goes along with reading.

The Grade 1 *Big Books* support the Grade 1 learners who have the opportunity to develop their pre-reading, pre-writing and pre-mathematical skills, and explore the skills they will need to get a solid educational foundation in that they find it easier to learn in Grade 1 and beyond.

Before children formally learn to read they need to learn how to hold a book and turn its pages and to understand how books work.

They need to understand the relationship between the pictures in the book and the words on the page for the stories told by the characters. They need to understand that stories are made up of words, which are made up of sounds that have meaning. This big book will be useful for developing these pre-literacy skills.

Why the *Big Books* were designed as 'wordless books' except for the headings and numbers is another advantage of English. The books are designed for use across Grade 1. The various components of language. The wordless stories require the imagination and the ability of learners to create and tell stories that the children will enjoy.

Research shows that literacy gaps that children are exposed to in reading and mathematics Grade 1 may persist longer, substantially worse years – throughout their primary and secondary schooling. Reading and developing the love for reading is central to achieving literacy learning.

The *Readers* big book is part of the Grade 1 package of *Readers* guides and textbooks used to ensure children in developing the skills and the pre-literacy concepts they need to get solid foundation for learning. The *Readers* Grade 1 resources are a package with appropriate materials for children to develop and practice the skills that will prepare them for formal schooling.
