[Pedalers](#) Jack B. Sudar, 2010-12-14 As technology advances, privacy diminishes. As population increases, the world gets smaller. What if, in the near future, the world were to become too small? What if our energy expenditures were eventually overwrought, and in order to survive, we were forced to create our own energy by riding bikes? That is the future for our hero, young Scorpio. Welcome to the world of Jack B. Sudar's *Pedalers*, a world of destruction. In the future, the silent monsters of our present have crushed our hopes. These monsters are not bombs, terrorists, or epic war; instead, the silent monsters are technology, stress, fear, and pollution. These silent monsters threaten to dismantle human life, but there is hope. There are answers. As a species, we can fight the silent monsters, but we must do it together. Follow Scorpio as he strives to make sense of his world along with the help of both friend and foe. The salvation of the human race can be accomplished; pleasure and peace can be regained. Before it can happen, though, we must be willing to listen.

Psychic Mania in Las Vegas Joan Taylor, 2012 The book is about Leonard's life and loves.

The Beasts of Electra Drive Rohan Quine, 2018-04-11 From Hollywood Hills mansions and Century City towers to South Central motels and the oceanside refinery, *The Beasts of Electra Drive* by Rohan Quine spans a mythic L.A. following seven spectacular characters or Beasts from games designer Jaymi's game worlds. The intensity of those Beasts' creation cycles leads to their release into real life in seemingly human forms and to their combative protection of him from destructive rivals at mainstream company Bang Dead Games. Grand spaces of beauty interlock with narrow rooms of terror, both in the real world and in cyberspace. A prequel to Quine's other five tales and Winner in the NYC Big Book Award 2021 and a Finalist in the IAN Book of the Year Awards 2018, *The Beasts of Electra Drive* is a unique explosion of glamour and beauty, horror and enchantment, exploring the mechanisms and magic of creativity itself. Jaymi is an independent games designer living on Electra Drive in the Hollywood Hills. Opposed to him are his former colleagues at Bang Dead Games. Their mounting competitiveness regarding his own extravagant game creation reaches a point where they attack him physically with a flying drone. Bang Dead is preparing the global release of a game called *Ain't They Freaky*, centring on five tabloid-flavoured social media Newsfeeds for the victimisation of certain people by others: the Gal Score, Guy Score, Trivia Score, Arts Score, and Cosy Score. Jaymi decides to fight back for self-protection and to counteract this game's destructive effects. He takes an irrevocable step after creating Amber, the most dangerous of the

characters or Beasts as he calls them who will populate Jaymi's project The Platinum Raven he releases Amber from that game such that Amber slithers out from Jaymi's computer monitor Appearing human this now incarnated Beast is sent to stalk Ain tTheyFreaky's creators in real life While Amber terrorises them Jaymi creates a second Beast Evelyn a woman of ease and freedom from his project The Imagination Thief Incarnated too she joins Amber in sabotaging a Bang Dead venture in the physical world As Jaymi's output spawns three more titles The Host in the Attic Apricot Eyes and Hallucination in Hong Kong he jumps into the creation cycles and subsequent incarnations of five more varied and human seeming Beasts These are Shigem Kim the Platinum Raven Scorpio and his own simulacrum the Jaymi Beast Targeted by a more lethal drone attack than the first one he decides that his Beasts' missions must escalate they will infiltrate the very substance of Ain tTheyFreaky Evelyn Shigem and Kim therefore sneak into one of the game's visual environments a mythically seedy Downtown L A where they try to put an end to some of the casually programmed cruelty in the game Shigem shames one Bang Dead programmer into secretly working for Jaymi instead and Kim persuades another high ranking Bang Dead employee to join Jaymi likewise Five of the Beasts proceed to sabotage Ain tTheyFreaky at code level turning its own server farm into a radically different kind of environment than before Their sabotage takes aim at the game in such a way as to break it down into its constituent glyphs and pixels then electrifies these recombining them into brand new forms of such enchanted love and wickedness and originality that they'd certainly have been forbidden by Bang Dead Amid the resultant conflict a Beast is sent to kill a human a Beast is arrested before escaping and wreaking revenge and another human is lashed to the top of the transmitter tower above the Hollywood Sign where After the ensuing convulsions of destruction and violent creation have run their course Jaymi's Beasts slip away to their appointed onscreen destinations one by one and he is left alone again just as he was before he brought them into being As he fires up his newly completed game The Imagination Thief for the first time however it is clear that neither he nor the world around him will ever quite be as before
