My Six Years With Gorbachev:

My Six Years with Gorbachev Anatoly C. Chernyaev, Anatoly S. Chernyaev, 2012-03-30 Drawing on his own diary as well as secret documents and transcripts of high level meetings Anatoly Chernyaev recounts the drama that swept the Soviet Union between 1985 and 1991 As Gorbachev's chief foreign policy aide for most of that period he played a central role in efforts to halt the arms race discard a confrontational ideology and open his country to the world And as Gorbachev's confidant on many domestic issues as well Chernyaev offers rare insights into the struggle over glasnost the growth of separatism and the rise of Boris Yeltsin While admiring of perestroika's founder Chernyaev is frank in faulting Gorbachev for his hesitancy in economic reforms for his delay in decentralizing Union republic ties and above all for his misplaced faith in the reformability of the Communist Party Altogether this book is essential reading for those interested in the Cold War's end the USSR's collapse and especially the role played by ideas ambitions and key personalities in these momentous events

Splitting Europe Jens Stilhoff Sørensen, 2022-02-04 Europe today is deeply divided Thirty years after the end of the Cold War and the celebratory moment when the wall came down we are faced with a new Cold War Russia Western relations are arguably more dangerous than ever since the Cuban missile crisis Diplomatic relations are frozen sanctions installed the old arms control treaties abandoned and new nuclear weapons and carriers developed EU Europe itself is divided It is not just Brexit marking the first real break away from the Union but also clashes within From the yellow vests clashes with police in the heart of Paris to so called populist movements on the rise in the periphery and across the continent The Visegrad countries Hungary Poland Slovakia Czech Republic are regularly at odds with the EU core Brussels and the France Germany axis to a degree where the idea of sanctions is invoked The Western security framework and NATO itself appears to break down with Turkey the NATO member with the organisations second largest military numerically now purchasing Russian weapon systems and seeking strategic relations in Eurasia How did it come to this and what happened with the post Cold War dream And what has happened to the post world war visions of European integration and security order What are the critical processes and events that have led us unto this path This book aims to address and explore these historical problems

Moscow, December 25, 1991 Conor O'Clery, 2011-08-23 The implosion of the Soviet Union was the culmination of a gripping game played out between two men who intensely disliked each other and had different concepts for the future Mikhail Gorbachev a sophisticated and urbane reformer sought to modernize and preserve the USSR Boris Yeltsin a coarse and a hard drinking bulldozer wished to destroy the union and create a capitalist Russia The defeat of the August 1991 coup attempt carried out by hardline communists shook Gorbachev's authority and was a triumph for Yeltsin But it took four months of intrigue and double dealing before the Soviet Union collapsed and the day arrived when Yeltsin could hustle Gorbachev out of the Kremlin and move in as ruler of Russia Conor O'Clery has written a unique and truly suspenseful thriller of the day the Soviet Union died The internal power plays the shifting alliances the betrayals the mysterious three

colonels carrying the briefcase with the nuclear codes and the jockeying to exploit the future are worthy of John Le Carr or Alan Furst The Cold War s last act was a magnificent dark drama played out in the shadows of the Kremlin

The Cold War John Lamberton Harper,2011-05-26 The East West struggle for supremacy from 1945 to 1989 shaped the lives of hundreds of millions and brought the world to the brink of disaster on several occasions More than two decades on the debate over its causes and dynamics is far from over Drawing on the latest archival evidence and scholarly research prize winning historian John Lamberton Harper provides a concise briskly written assessment of the Cold War Why did it start and eventually envelope nearly every corner of the planet Why did it stay cold at least in its original European theatre Why did it end and who should take the credit Harper illuminates the deep seated behavioural patterns within both the Soviet Union and the United States the search for security through expansion and military might the belief in a messianic mission to uplift humanity but also a readiness to live and let live based on membership in a common state system and a shared interest in survival He stresses ways in which internal competitions for political power tilted both the U S and Soviet systems towards bellicosity and obsessive preparation for a hot war that no one seriously intended to begin It is a story of delusions of omnipotence and rash behavior punctuated by moments of redeeming statesmanship and self restraint Harper concludes that rather than triumphalism a clear look back at the Cold War s close calls with catastrophe and enormous cost in lives and treasure ought to evoke a sense of regret and humility as well as relief

Red Commanders Roger R. Reese,2005 One of the largest and most feared military forces in the world the Red Army was a key player in advancing the cause of Soviet socialism Rising out of revolutionary era citizen militias it aspired to the greatness needed to confront its Cold War adversaries but was woefully unprepared to change with the times In this first comprehensive study of the Soviet officer corps Roger Reese traces the history of the Red Army from Civil War triumph through near decimation in World War II and demoralizing quagmire in Afghanistan to the close scrutiny it came under during Gorbachev s reform era Reese takes readers inside the Red Army to reconstruct the social and institutional dynamics that shaped its leadership and effectiveness over seventy three years He depicts the lives of these officers by revealing their class origins life experiences party loyalty and attitudes toward professionalism He tells how these men were shaped by Russian culture and Soviet politics and how the Communist Party dominated every aspect of their careers but never allowed them the autonomy they needed to cultivate a high level of military effectiveness Despite its struggle to develop and maintain professionalism the officer corps was often hampered by factors inextricably intertwined with the Soviet state Marxist theory revolutionary ideology friction between party and non party members and the influence of the army s political administration organs Reese shows that by rejecting the Western bourgeois model of military professionalism the state greatly limited its officer corps ability to develop a more effective military While a sense of group identity emerged among officers after World War II it quickly lost relevance in the face of postwar challenges especially the war in Afghanistan which underscored fatal flaws in command leadership Red

Commanders offers new insight into the workings of a military giant and also restores Leon Trotsky to his rightful place in Soviet military history by featuring his ideas on building a new army from the ground up It is an important look behind the scenes at a military establishment that continues to face leadership challenges in Russia today **A History of Russia, the Soviet Union, and Beyond** David MacKenzie, Michael W. Curran, 2002 In this revision of their best selling book MacKenzie and Curran present a clear and objective account of the history of Russians and other eastern Slavs from its beginnings in ancient Rus to the demise of the Soviet Union and most recently the Putin presidency Acclaimed in the field for its clarity comprehensiveness and accuracy the text balances social cultural history with political history The authors approach weaves the external geographic determinism of the Eurasian school and the organic inner oriented approach of Russian historians

The Great Cold War Gordon S. Barrass, 2009 The Great Cold War is arguably the most fascinating account yet written about the Cold War and a timely enunciation of the lessons we need to learn from the Cold War years if we are to be successful in tackling the potential confrontations of the 21st century This is a riveting expose of modern history for the general reader a must read for policy makers and an eye opening overview for scholars and students No other book conveys so vividly how each side interpreted the other's intentions and what shaped their actions In a richly informed and perceptive insider's account former British diplomat Gordon Barrass shows that while there were times when each side did understand the other's intentions there were also times when they were wildly wrong leading to the chilling revelation that the situation was far more serious than most people knew at the time or imagine now In looking back over that half century of confrontation Barrass poses three big questions Why did the Cold War start Why did it last so long And why did it end the way it did To answer them he traveled to Washington Paris Brussels Berlin Warsaw and Moscow to interview nearly 100 people including top policymakers strategists military commanders and key figures in the world of intelligence Their narratives reveal what was going on behind the scenes providing valuable insights into the mixture of insecurity ignorance and ambition that drove the rivalry between the two sides Barrass concludes that bringing the Cold War to a peaceful end was a far greater challenge than just being tough with the Soviets In the end it depended on the Americans getting inside the mind of the Soviets to gain the leverage needed to achieve their goal and intelligence played a key role in that process

Twentieth Century International Relations: The rise and fall of the Cold War Michael Cox, 2006 **When the World Seemed New** Jeffrey A. Engel, 2017-11-07 Engel's excellent history forms a standing if unspoken rebuke to the retrograde nationalism espoused by Donald J Trump The New York Times Book Review The collapse of the Soviet Union was the greatest shock to international affairs since World War II In that perilous moment Saddam Hussein invaded Kuwait and regimes throughout Eastern Europe and Asia teetered between democratic change and new authoritarian rule President Bush faced a world in turmoil that might easily have tipped into an epic crisis As presidential historian Jeffrey Engel reveals in this page turning history Bush rose to the occasion brilliantly Using handwritten letters and direct conversations some revealed here

for the first time with heads of state throughout Asia and Europe Bush knew when to push when to cajole and when to be patient Based on previously classified documents and interviews with all the principals When the World Seemed New is a riveting fly on the wall account of a president with his calm hand on the tiller guiding the nation from a moment of great peril to the pinnacle of global power An absorbing book The Wall Street Journal By far the most comprehensive and compelling account of these dramatic years thus far The National Interest A remarkable book about a remarkable person Southern Methodist University professor Jeffrey Engel describes in engrossing detail the patient and sophisticated strategy President George H W Bush pursued as the Cold War came to an end The Dallas Morning News **Tactical Nuclear Weapons** Taina Susiluoto,2002 Brings together some of the foremost international experts on TNWs to examine the state of the TNWs regime ten years on and explore practical options for strengthening and revamping it to more adequately address current and future arms control needs In particular the study recommends that the Russian Federation and the United States re affirm their 1991 2 declarations regarding TNWs and work out suitable complementary monitoring and transparency measures as well as pledge not to develop any new TNWs or to resume testing and not to use or threaten to use TNWs Ronald Reagan and the 1980s Cheryl Hudson,Gareth Davies,2008-10-15 By the end of the 1980s many Americans looked at the state of the nation with a renewed optimism America was the world s only superpower Communism had been defeated the economic misery and inflation of the late 1970s and early 1980s had given way to prosperity and vast global wealth and a new swashbuckling patriotism had entered into the public imagination This patriotism and optimism was personified by an enduring American president Ronald Wilson Reagan The essays in this volume revisit the 1980s in order to examine the factors that contributed to Ronald Reagan s political and cultural triumphs provide an assessment of the political social and economic substance and legacy of his policies not just for Americans but for the shape of the world order *Dissolution* Edward W. Walker,2003-03-25 In December 1991 the Soviet Union passed into history as a legal entity breaking apart into 15 successor states This clear and convincing book explains why It emphasizes the critical role of Soviet ethno federalism as well as the normative claims and legitimizing myths of Soviet nationality policy Institutional constraints and legitimizing myths Walker argues empowered the anti union opposition even in republics where it had limited popular support He also shows how they helped bring about an outcome_ the full dissolution of the USSR_ that surprisingly few desired *The Nation* ,2003 **The Soviet Union** Tom Stableford,2005 This is the first volume of an integrated documentary history of the Soviet Union It draws on the primary material that has come to light since the collapse of Communist rule in 1991 to provide an entree to debate over humanity s most momentous and tragic experiment **The Supplement to The Modern Encyclopedia of Russian, Soviet and Eurasian History: Chicago world's fair, Russian presence at - Constitution of Armenia, 1945** George N. Rhyne,Bruce Friend Adams,2005 **International Affairs** ,2002 **Encyclopedia of Russian History** James R. Millar,2004 Review This four volume set features nearly 1 500 entries by experts on all aspects of Russian history including

important biographical figures geographical areas ethnographic groups cultural landmarks military campaigns and social issues The Top 20 Reference Titles of the Year American Libraries May 2004 The Revolutions of 1989 Wolfgang Mueller, Michael Gehler, Arnold Suppan, 2015 Only a few people foresaw the sudden and momentous events of 1989 within months the seemingly unshakable communist regimes of Eastern Europe were washed away and with them the postwar international order This book gives an overview over the national revolutions and external reactions It contains chapters on the revolutions in all major countries of the former communist bloc as well as on the responses of all major international players The first part examines the revolutionary events from above and from below in Eastern Europe as well as China and their backgrounds The second part deals with Soviet and Western perceptions and responses The third part focuses on the aftermath of the revolutions on societal transformations the acceptance of the new Central European democracies to NATO and the EU and on the memory of 1989 *Book Review Index*, 2003 Every 3rd issue is a quarterly cumulation **The Soviet Union** Edward Acton, Tom Stableford, 2005 Combining narrative commentary with over 270 contemporary documents this title provides an entree to debate over humanity's most momentous and tragic experiment It is suitable for students at all levels

My Six Years With Gorbachev Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**My Six Years With Gorbachev**," written by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
