Place To Remember Using History To Build Community:

A Place to Remember Robert Archibald, 1999 In this call for better public history Robert Archibald explores the intersections of history memory and community to illustrate the role of history in contemporary life and how we are active participants in the past Introduction to Community Oral History Mary Kay Quinlan, Nancy MacKay, Barbara W Sommer, 2016-06-16 The first book of the five volume Community Oral History Toolkit introduces the field of oral history sets the stage for an oral history project and offers a theoretical basis for the practical steps outlined in the remaining volumes Doing Oral History Donald A. Ritchie, 2014-09-19 Doing Oral History is considered the premier guidebook to oral history used by professional oral historians public historians archivists and genealogists as a core text in college courses and throughout the public history community Over the past decades the development of digital audio and video recording technology has continued to alter the practice of oral history making it even easier to produce quality recordings and to disseminate them on the Internet This basic manual offers detailed advice on setting up an oral history project conducting interviews making video recordings preserving oral history collections in archives and libraries and teaching and presenting oral history Using the existing Q A format the third edition asks new questions and augments previous answers with new material particularly in these areas 1 Technology As before the book avoids recommending specific equipment but weighs the merits of the types of technology available for audio and video recording transcription preservation and dissemination Information about web sites is expanded and more discussion is provided about how other oral history projects have posted their interviews online 2 Teaching The new edition addresses the use of oral history in online teaching It also expands the discussion of Institutional Review Boards IRBs with the latest information about compliance issues 3 Presentation Once interviews have been conducted there are many opportunities for creative presentation There is much new material available on innovative forms of presentation developed over the last decade including interpretive dance and other public performances 4 Legal considerations The recent Boston College case in which the courts have ruled that Irish police should have access to sealed oral history transcripts has re focused attention on the problems of protecting donor restrictions The new edition offers case studies from the past decade 5 Theory and Memory As a beginner s manual Doing Oral History has not dealt extensively with theoretical issues on the grounds that these emerge best from practice But the third edition includes the latest thinking about memory and provides a sample of some of the theoretical issues surrounding oral sources It will include examples of increased studies into catastrophe and trauma and the special considerations these have generated for interviewers 6 Internationalism Perhaps the biggest development in the past decade has been the spreading of oral history around the world facilitated in part by the International Oral History Association New oral history projects have developed in areas that have undergone social and political upheavals where the traditional archives reflect the old regimes particularly in Eastern Europe the Middle East Asia Africa and Latin America The third edition includes many more

references to non U S projects that will still be relevant to an American audience These changes make the third edition of Doing Oral History an even more useful tool for beginners teachers archivists and all those oral history managers who have inherited older collections that must be converted to the latest technology

Places That Count Thomas F. King, 2003-09-16 Places That Count offers professionals within the field of cultural resource management CRM valuable practical advice on dealing with traditional cultural properties TCPs Responsible for coining the term to describe places of community based cultural importance Thomas King now revisits this subject to instruct readers in TCP site identification documentation and management With more than 30 years of experience at working with communities on such sites he identifies common issues of contention and methods of resolving them through consultation and other means Through the extensive use of examples from urban ghettos to Polynesian ponds to Mount Shasta TCPs are shown not to be limited simply to American Indian burial and religious sites but include a wide array of valued locations and landscapes the United States and worldwide This is a must read for anyone involved in historical preservation cultural resource management or community development

A Place to Remember Robert Archibald, 1999-07-07 Well known public historian Robert Archibald s personal exploration of the intersections of history memory and community reveals how we participate in the making and sustaining of community as well as how we remember the community that shaped us Writing in a rich literary narrative Archibald blends local history personal reminiscence and an analysis of the changing meaning of community with a passionate call for more effective public history A Place to Remember poetically illustrates how we are active participants in the past and the role and importance of history in contemporary life

The Oxford Handbook of Public History, 2017-09-20 The Oxford Handbook of Public History introduces the major debates within public history the methods and sources that comprise a public historian s tool kit and exemplary examples of practice It views public history as a dynamic process combining historical research and a wide range of work with and for the public informed by a conceptual context The editors acknowledge the imprecision bedeviling attempts to define public history and use this book as an opportunity to shape the field by taking a deliberately broad view They include professional historians who work outside the academy in a range of institutions and sites and those who are politically committed to communicating history to the wide range of audiences This volume provides the information and inspiration needed by a practitioner to succeed in the wide range of workplaces that characterizes public history today for university teachers of public history to assist their students and for working public historians to keep up to date with recent research This handbook locates public history as a professional practice within an intellectual framework that is increasingly transnational technological and democratic While the nation state remains the primary means of identification increased mobility and the digital revolution have occasioned a much broader outlook and awareness of the world beyond national borders It addresses squarely the tech savvy media literate citizens of the world the digital natives of the twenty first century in a way that recognizes the revolution in shared authority

that has swept museum work oral history and much of public history practice This volume also provides both currently practicing historians and those entering the field a map for understanding the historical landscape of the future not just to the historiographical debates of the academy but also the boom in commemoration and history outside the academy evident in many countries since the 1990s which now constitutes the historical culture in each country Public historians need to understand both contexts and to negotiate their implications for questions of historical authority and the public historian s work The boom in popular history is characterized by a significant increase in both making and consuming history in a range of historical activities such as genealogy family history and popular collecting cultural tourism historic sites and memorial museums increased memorialization both formal and informal from roadside memorials to state funded shrines and memorial Internet sites increased publication of historical novels biographies and movies and TV series set in the past Much of this as well as a vast array of new community cultural projects has been facilitated by the digital technologies that have increased the accessibility of historical information the democratization of practice and the demand for sharing authority
