Plan Graphics:

Plan Graphics for the Landscape Designer Tony Bertauski, 2018-01-03 Many landscape architects and designers embrace an artistic approach to design. Maintaining that loose aesthetic appeal requires landscape design students to not only master the essentials of design but also fundamental drawing skills. Tony Bertauski introduces aspiring designers to the techniques of drawing, leading them from no knowledge of the craft to a final plan drawing of professional quality. Throughout, he emphasizes that a drawn landscape plan has not only aesthetic value but also communicates effectively with clients. With step-by-step illustrations, readers will learn to use drafting tools to set up drawings, letter professionally, draw symbols and textures to illustrate plants and hardscapes, label plan drawings accurately, and draw to scale. Develop section drawings to communicate vertical design elements, enhance drawings using design software.

Plan Graphics for the Landscape Designer Tony Bertauski, 2019-01-10 Many professional landscape architects and designers embrace the practice of rendering plan drawings by hand as an artistic approach that supports the design process. Tony Bertauski uses abundant illustrations to train aspiring designers in the essential drawing techniques used to craft presentation graphics while learning the essentials of design. He guides students through the tools and techniques of drawing that are often overlooked in the classroom so that students can complete assignments on their own outside the lab. Student designers will learn to create plans that not only appeal aesthetically but also communicate effectively with clients.
