plague outbreak in 1665 which killed an estimated 100 000 people in just 18 months Though written in the first person perspective by Daniel Defoe he was only 5 years old during the outbreak The initials at the end of the work H F suggest that Journal is based on accounts of Defoe s uncle Henry Foe This highly readable short novel is fascinating not just as a historical account but in its description of how people reacted to a deadly disease that they understood to be contagious but yet had no cure for Defoe derides quack doctors who killed more than they saved and then themselves succumbed to plague He tells of people turning to religion of people driven mad by the death around them and raving in the streets of people fleeing to the country and of others barricading themselves in their homes The ways people reacted in 1665 could be the very same ways people might have reacted today to a mysterious deadly and highly contagious outbreak In 1665 the Great Plague swept through London claiming nearly 100 000 lives In *A Journal of the Plague Year* Defoe vividly chronicles the progress of the epidemic We follow his fictional narrator through a city transformed the streets and alleyways deserted the houses of death with crosses daubed on their doors the dead carts on their way to the pits and encounter the horrified citizens of the city as fear isolation and hysteria take hold The shocking immediacy of Defoe s description of plague racked London makes this one of the most convincing accounts of the Great Plague ever written *A Journal of the Plague Year by Daniel Defoe Annotated Volume (Historical Fiction)* Daniel Defoe,2020-04-13 *A Journal of the Plague Year* is a novel by Daniel Defoe This novel is an account of one man s experiences of the year 1665 in which the Great Plague or the bubonic plague struck the city of London The book is told somewhat chronologically though without sections or chapter headings Presented as an eyewitness account of the events at the time it was written in the years just prior to the book s first publication in March 1722 Defoe was only five years old in 1665 and the book itself was published under the initials H F and is probably based on the journals of Defoe s uncle Henry Foe In the book Defoe goes to great pains to achieve an effect of verisimilitude identifying specific neighborhoods streets and even houses in which events took place Additionally it provides tables of casualty figures and discusses the credibility of various accounts and anecdotes received by the narrator The novel is often compared to the actual contemporary accounts of the plague in the diary of Samuel Pepys Defoe s account which appears to include much research is far more systematic and detailed than Pepys s first person account Whether the Journal can properly be regarded as a novel has been disputed *A Journal of the Plague Year Complete Unabridged and Annotated Edition* Daniel Defoe,2020-04-07 *A Journal of the Plague Year* is a novel by Daniel Defoe This novel is an account of one man s experiences of the year 1665 in which the Great Plague or the bubonic plague struck the city of London The book is told somewhat chronologically though without sections or chapter headings Presented as an eyewitness account of the events at the time it was written in the years just prior to the book s first publication in March 1722 Defoe was only five years old in 1665 and the book itself was published under the initials H F and is probably based on the journals of Defoe s uncle Henry Foe In the book Defoe goes to great pains to achieve an effect of verisimilitude identifying specific neighborhoods streets and even houses in
