Earth These aliens have crossed the galaxy to save humanity convinced that the people of Earth must leave their ecologically ravaged planet behind and join them among the stars And if humanity doesn't agree they may need to be saved by force But the watershed networks that rose up to save the planet from corporate devastation aren't ready to give up on Earth Decades ago they reorganized humanity around the hope of keeping the world livable By sharing the burden of decision making they've started to heal our wounded planet Now corporations nation states and networks all vie to represent humanity to these powerful new beings and if anyone accepts the aliens offer Earth may be lost With everyone's eyes turned skyward the future hinges on Judy's effort to create understanding both within and beyond her own species At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied
