Queer Race:

Queer Race Ian Barnard, 2004 One of the first extended and theoretically informed investigations of queer theory's racial inscription *Queer Race* understands race as inextricably sexualized as sexuality is always racially marked The book critically and playfully explores intellectual and political deployments of the term queer gay pornographic videos about South Africa contemporary literary representations of interracial gay desire the writings of Gloria Anzaldá and Jeffrey Dahmer's criminal trial Through these explorations *Queer Race* charts a framework for understanding the race of queer theory that both tests queer theory's limits and suggests its future interrelations with anti-racist work On Making Sense Ernesto Javier Martínez, 2012-10-31 *On Making Sense* juxtaposes texts produced by black Latino and Asian queer writers and artists to understand how knowledge is acquired and produced in contexts of racial and gender oppression From James Baldwin's 1960s novel *Another Country* to Margaret Cho's turn-of-the-century stand-up comedy these works all exhibit a preoccupation with intelligibility or the labor of making sense of oneself and of making sense to others In their efforts to make sense these writers and artists argue against merely being accepted by society on society's terms but articulate a desire to confront epistemic injustice an injustice that affects people in their capacity as knowers and as communities worthy of being known The book speaks directly to critical developments in feminist and queer studies including the growing ambivalence to anti-realist theories of identity and knowledge In so doing it draws on decolonial and realist theory to offer a new framework to understand queer writers and artists of color as dynamic social theorists *A Queer Race* William Westall, 1887

Different Shades of Queer: Race and Racism in Gay America Chōng Han, 2019 Recent scholarship on the experiences of gay men of color have found that contemporary gay life is marked by high levels of racism directed towards gay men of color by gay white men with much of it manifesting as negative sexual attitudes towards and sexual exclusion or fetishization of non-white men In fact several studies have now shown that gay white men are much more likely to prefer members of their own race and actively exclude non-white men as potential sexual partners than any other group Similarly gay men of color themselves are much more likely to prefer white men over other men of color as well Given these experiences the concept of sexual racism among gay men has garnered widespread mainstream attention in media outlets While the idea of sexual racism has been widely discussed in the popular press there have been fewer attempts to systematically examine how such racialized hierarchies of desire are constructed and maintained in the gay community understood by gay men of color and the impact these racial hierarchies have on them In this dissertation I attempt to address how a racial hierarchy of desire is created by gay media how sexual racism is experienced by gay men of color and examine the consequences of sexual racism Doing so I argue that much more than simply personal preferences gay racial desire is a consequence of the ways that whiteness has come to be seen as being normative within the gay community and has a significant negative impact on gay men of color At the same time I also argue that gay men of color actively confront

dominant constructions about race and actively challenge racial hierarchies of desire thereby challenging the white racial frame that constructs racialized hierarchies of desire

Home and Community for Queer Men of Color C. Winter Han, Jesús Gregorio Smith, 2019-12-13 This edited volume examines how and where gay men of color find home and what kind of home they find how they make sense of race and sexuality and how their experiences reflect what it means to be raced and sexed in America The contributors argue both racially and sexually marginalized groups all confront levels of racism and heterosexism that is practiced by the larger ethnic and sexual communities that use white heterosexuality as the norm to which all others are compared They further argue that despite different constructions of race and ethnicity there are similar themes for racialized groups that need to be explored

Queer Kinship Teagan Bradway, Elizabeth Freeman, 2022-08-08 The contributors to this volume assert the importance of queer kinship to queer and trans theory and to kinship theory In a contemporary moment marked by the rising tides of neoliberalism fascism xenophobia and homo and cis nationalism they approach kinship as both a horizon and a source of violence and possibility The contributors challenge dominant theories of kinship that ignore the devastating impacts of chattel slavery settler colonialism and racialized nationalism on the bonds of Black and Indigenous people and people of color Among other topics they examine the blood tie as the legal marker of kin relations the everyday experiences and memories of trans mothers and daughters in Istanbul the outsourcing of reproductive labor in postcolonial India kinship as a model of governance beyond the liberal state and the intergenerational effects of the adoption of Indigenous children as a technology of settler colonialism *Queer Kinship* pushes the methodological and theoretical underpinnings of queer theory forward while opening up new paths for studying kinship Contributors Aqdas Aftab Leah Claire Allen Tyler Bradway Juliana Demartini Brito Judith Butler Dilara al kan Christopher Chamberlin Aobo Dong Brigitte Fielder Elizabeth Freeman John S Garrison Nat Hurley Joseph M Pierce Mark Rifkin Poulomi Saha Kath Weston

Thinking Queerly David Ross Fryer, 2015-11-17 Queer theory and the gay rights movement historically have been in tension with the former critiquing precisely the identity politics on which the latter relies Yet neither queer theory in its predominately poststructuralist form nor the gay rights movement with its conservative inclusionary aspirations has adequately addressed questions of identity or the political struggles against normativity that mark the lives of so many queer people Taking on issues of race sex gender and what he calls the ethics of identity Fryer offers a new take on queer theory one rooted in phenomenology rather than poststructuralism that seeks to put postnormative thinking at its center This provocative book gives us a glimpse of what thinking queer can look like in our posthumanist age

Violence against Queer People Doug Meyer, 2015-10-11

Violence against lesbians and gay men has increasingly captured media and scholarly attention But these reports tend to focus on one segment of the LGBT community white middle class men and largely ignore that part of the community that arguably suffers a larger share of the violence racial minorities the poor and women In *Violence against Queer People* sociologist Doug Meyer offers the first investigation of anti queer violence that focuses on the role played by race class and gender Drawing on interviews with forty seven victims of violence Meyer shows that LGBT people encounter significantly different forms of violence and perceive that violence quite differently based on their race class and gender His research highlights the extent to which other forms of discrimination including racism and sexism shape LGBT people s experience of abuse He reports for instance that lesbian and transgender women often described violent incidents in which a sexual or a misogynistic component was introduced and that LGBT people of color sometimes weren t sure if anti queer violence was based solely on their sexuality or whether racism or sexism had also played a role Meyer observes that given the many differences in how anti queer violence is experienced the present media focus on white middle class victims greatly oversimplifies and distorts the nature of anti queer violence In fact attempts to reduce anti queer violence that ignore race class and gender run the risk of helping only the most privileged gay subjects Many feel that the struggle for gay rights has largely been accomplished and the tide of history has swung in favor of LGBT equality *Violence against Queer People* on the contrary argues that the lives of many LGBT people particularly the most vulnerable have improved very little if at all over the past thirty years

The Black Queer Work of Ratchet Nikki Lane, 2019-11-27 This book enters as a corrective to the tendency to trivialize and mis appropriate African American language practices The word ratchet has entered into a wider whiter American discourse the same way that many words in African American English have through hip hop and social media Generally ratchet refers to behaviors and cultural expressions of Black people that sit outside of normative middle class respectable codes of conduct Ratchet can function both as a tool for critiquing bad Black behavior and as a tool for resisting the notion that there are such things as good and bad behavior in the first place This book takes seriously the way

ratchet operates in the everyday lives of middle class and upwardly mobile Black Queer women in Washington DC who because of their sexuality are situated outside of the norms of Black respectability The book introduces the concept of ratchet boogie cultural politics which draws from a rich body of Black intellectual traditions which interrogate the debates concerning what is and is not acceptable Black middle class behavior Placing issues of non normative sexuality at the center of the conversation about notions of propriety within normative modes of Black middle class behavior this book discusses what it means for Black Queer women s bodies to be present within ratchet boogie cultural projects asking what Black Queer women s increasing visibility does for the everyday experiences of Black queer people more broadly

Queer Transxions of Race, Nation, and Gender Jacqueline Brian Woodson, José Esteban Muñoz, Anne McClintock, Trish Rosen, 1997 Until now queer theory has largely been silent about questions of race especially when considered in an international context Much postcolonial theory has been silent about questions regarding gender and sexuality This special issue of Social Text explores the relations between race and queer sexuality by focusing on the politics of transgression in a transnational world In the first section of this issue Race and Queer Sexuality international authors address topics ranging from Asian American queer identity and its relation to transnational and diasporic concerns to homophobia and its relationship to black nationalism in South Africa Other subjects include sexuality race and public space lesbian pedagogy and the nation in Latin America and an analysis of cross race and cross gender drag in the work of L A drag queen Vaginal Creme Davis In the second section The Politics of Transgression contributors focus on transgression and its relationship to power and history One essay explores Irish immigration in the U S and the Irish female body as a figure of transnational contagion and blood panic while another focuses on Oscar Wilde race and queer sexuality Other pieces include a meditation on British filmmaker and writer Derek Jarman s film Blue Race and Queer Sexuality confronts the limitations of prior work in queer theory while providing a starting point for discussion of race queer sexuality and the politics of transgression that will be part of queer theory of the future Contributors Judith Butler David Eng Licia Fiol Mata Judith Halberstam Phillip Brian Harper Neville Hoad Rachel Holmes Don Kulick Tim Lawrence Rosalind Morris Jos Esteban Mu oz Ben Singer David Valentine Priscilla Wald Riki Anne Wilchins

Priscilla, (white) Queen of the Desert Damien W. Riggs, 2006 Written for an international audience Priscilla White Queen of the Desert speaks to the current crisis in queer rights and representation in the context of colonial nations Focusing on issues of identity but exploring concerns as wide ranging as morality same sex marriage state sanction families and history this book will appeal to students activists and academics alike Asking hard questions of queer rights movements and the identity politics that often inform them the book calls for a sustained engagement with the theorisation of queer racial identity and queer race privilege
