Model Context Protocol Niladri Sen, Mehul Gupta, 2025-06-07 Model Context Protocol

Advanced AI Agents for Beginners A beginner friendly guide to one of the most important shifts happening in AI right now This book is for anyone who's ever looked at ChatGPT and thought Cool but can it actually do stuff for me Like not just chat Actually take over tasks run your software automate your day That's where something called the Model Context Protocol MCP comes in It's a lightweight system that lets AI take control of tools you already use think Figma Excel WhatsApp even Blender without needing to write a single line of code Yep No Python No APIs Just set it up and let the AI get to work Inside you'll get a hands on intro to how MCP works why people are calling it the engine of AI Agents 2.0 and how to start using it right now You'll learn how to set up over 20 different MCP servers step by step even if you've never touched code in your life The idea is simple help you automate the boring stuff and get ready for how AI is going to reshape everything from workflows and software to the way we think about work itself Want AI to build a PowerPoint for you Sort through Excel sheets Post on LinkedIn Design in Figma This book shows you how to do all that without lifting a finger Want a free PDF copy Just email your Kindle transaction details to [datasciencepocket@gmail.com](mailto:datasciencepocket@gmail.com) and I'll send one over What's inside We'll start from the ground up What exactly is generative AI Where do LLMs fit in And what's so different about AI agents compared to regular chatbots From there we'll dive into MCP how it works why it matters and how it connects to tools you already use You'll also learn how to wire it up with services like LangChain Zapier or even run it locally with Ollama and other open source LLMs

And yep we'll talk about the risks too. This isn't some hyped-up fantasy. If you're going to work with autonomous AI, it's worth understanding what could go wrong and how to stay in control. Who's this for? Honestly, anyone—even a little bit curious about AI. Developers, designers, analysts, students, marketers, researchers, it doesn't matter. If you've ever said, "Ugh, I wish AI could just do this for me," this book is a great starting point. And since it's all no-code, you don't need to be technical. If you can follow instructions, you're good. A few things you'll learn: What AI agents actually are and why they're more than just smarter chatbots. How the Model Context Protocol works under the hood. Step-by-step walkthroughs for setting up AI control over Excel, WhatsApp, Notion, GitHub, SQL, Google Docs, Docker, Figma, PowerPoint, and more. Creating your own MCP Server using it with LangChain and Ollama and other customizations. What to watch out for, yes, the risks are real. And where all this is probably headed over the next few years. Bonus: You can read the first chapter for free using the Kindle app, no Kindle device needed. Just open it on your phone or tablet and dive in.

**The No-code AI Agent Builder** Stephen K Thornton, 2025-09-28

Have you ever wished you could build intelligent AI agents without spending years learning complex programming languages? What if you could design, train, and launch powerful AI tools that work for you without writing a single line of code? If those questions make you curious, then *The No-Code AI Agent Builder* was written with you in mind. This book is your complete guide to understanding and creating AI agents using accessible no-code tools, even if you have zero technical background. It's designed to speak directly to you, not at you. Instead of burying you under jargon and complicated theories, it walks you step-by-step through how non-programmers are now building intelligent systems that automate tasks, answer questions, personalize customer experiences, and make smarter business decisions—all visually and all without traditional coding. What makes this book different is how it connects the technical with the practical. You'll explore how no-code AI platforms work behind the scenes, how to design and train your own agents, and how to connect them with existing workflows or tools you already use. You'll discover how AI agents learn from data, how they make decisions, and how you can customize their behavior to fit your needs, whether you're trying to streamline your business, launch a new product, or create a smarter personal assistant. And here's something worth thinking about: Why should only developers and data scientists benefit from AI when tools now exist that allow anyone—entrepreneurs, freelancers, educators, small business owners, even hobbyists—to create their own AI solutions? The truth is, the barrier to entry has never been lower, and this book shows you exactly how to cross it with confidence. Inside these pages, you'll learn how to: Understand the building blocks of AI agents without technical overwhelm. Design, configure, and deploy your own no-code AI agents step-by-step. Automate repetitive tasks and decision-making processes visually. Connect your AI creations to real-world applications and business workflows. Scale and manage your agents responsibly with ethical and strategic insights. Whether you're a complete beginner or a professional seeking faster, more efficient ways to build AI-driven systems, *The No-Code AI Agent Builder* is your blueprint for turning ideas into working intelligent agents quickly, creatively, and without writing code. The future of AI isn't reserved for engineers anymore.

it's now open to anyone willing to explore it. So the question is: are you ready to start building your own AI agents and transforming the way you work, think, and create?

**AI Agents for Beginners** Al Harris, 2025-03-04. This book is for complete beginners with no coding experience. This book takes you from zero to AI agent creator in a fun, beginner-friendly way. *Build a 1-Person AI Agency* Joe Correa, 2025-10-20. Build a 1-Person AI Agency: Offer Automation, Content Creation, and Lead Generation Services Using AI Tools. By Joe Correa. You don't need employees. You don't need investors. You don't need to be a tech genius. What you need is a system—a way to deliver real results to clients using today's most powerful AI tools. In this step-by-step guide, digital entrepreneur Joe Correa shows you how to start, grow, and scale a profitable 1-person AI agency from scratch, offering automation, content creation, and lead generation services that businesses need now more than ever. This isn't theory. This is a practical roadmap designed to help you use tools like ChatGPT, Make.com, Canva, and Pictory to deliver results, land paying clients even with zero social following, build recurring revenue with systemized service packages, automate your own workflows to save time and boost efficiency, scale your income without hiring a team, create templates, client dashboards, and digital products to grow. Whether you're a freelancer ready to level up or a complete beginner with a laptop and Wi-Fi, this book gives you the strategies, tools, and mindset to create real freedom with AI. One person. One system. One decision to start. That's all it takes to build an agency that runs lean, earns monthly, and grows on your terms.
