**An Annotated Bibliography of Oregon Bird Literature Published Before 1935** George A. Jobanek,1997 This exhaustive richly annotated resource fills an important gap in Oregon bird literature George Jobanek has carefully searched dozens of early ornithological scientific and natural history journals and publications from American Field to Zoe for records of Oregon birds Because of the rarity of many references and their inaccessibility to most readers the author has provided annotations for each of the nearly two thousand entries Jobanek conveys in a concise manner the salient points of each article and frequently quotes from the references especially descriptions of abundance and range In addition many of the annotations include citing of recent references By briefly describing each item Jobanek reveals its usefulness for contemporary readers References are organized by author and cross indexed by species county key word and year of publication Key words such as behavior conservation distribution migration nesting plumage and taxonomy have been assigned to each entry to reflect the primary topic or theme of the Oregon material of the reference A gazetteer identifies localities mentioned in the annotations This bibliography is a valuable new resource for professional and informed amateur ornithologists wildlife managers ecologists natural historians librarians and anyone interested in birds in the Pacific Northwest Its references will offer researchers a base for future studies and allow readers a glimpse of an earlier golden era in ornithology     *Oregon Geographic Names* Lewis Ankeny McArthur,2013-09     **AB Bookman's Weekly** ,1994
