

FEATURE	DIRECT INDEXING	CUSTOM INDEXING
CUSTOMIZATION	Limited: may exclude a few securities for tax or personal reasons but largely sticks to the index	High; allows for detailed customization such as ESG filters, sector tilts, or specific exclusions.
FLEXIBILITY	Follows a pre-defined index with minimal deviation.	Offers flexibility to adjust weightings, exclude securities, or add themes.
DIVERSIFICATION	Matches the diversification of the underlying index closely.	Custom diversification may differ based on investor preferences, potentially leading to concentration.
CONTROL	Investors control individual securities but within the confines of replicating the index.	Investors have full control over portfolio design and holdings.
COMPLEXITY	Relatively straightforward; focused on replicating and tracking the index.	More complex; involved designing, implementing, and managing a bespoke portfolio.
MINIMUM INVESTMENT	Often requires a higher minimum investment, typically starting at \$250,000 or more.	Minimums can vary widely but are generally similar or higher than direct indexing due to customization.
USE CASE	Ideal for tax-conscious investors who want index exposure with direct security ownership.	Ideal for investors with specific goals, preferences, or constraints that cannot be met with standard indices.
TECHNOLOGY DEPENDENCE	Relies on platforms to track and manage index replication efficiently.	Requires advanced portfolio management tools for customization and ongoing adjustments.
SCALABILITY	Suitable for high-net-worth investors due to cost and complexity.	Also suitable for high-net-worth individuals, but potentially higher costs due to greater customization.
