

# MARGINALIZATION

Marginalization refers to the process by which individuals or groups are pushed to the edges of society, limiting their access to resources, power, and opportunities.

## DEFINITION

Marginalization refers to a complex process of relegation to the fringe of society. It is often triggered by the intersection of sociocultural, economic, and political forces that manifest in the unequal distribution of resources and opportunities.

As defined by Giddens (2006), marginalization is: "...the act of consigning to a lower or outer edge, as of specific groups of people."

## EXAMPLES

- **African Americans:** Historical and systemic racism has led to the marginalization of African American communities, reducing access to social services.
- **Indigenous Populations:** Indigenous communities are often marginalized due to a lack of recognition of their rights, culture, and traditional knowledge systems.
