Russian Helmets:

Visualizing Russia Cynthia Hyla Whittaker, 2010-07-14 The Romantic search for a national past was a European preoccupation in the first half of the nineteenth century In Russia this process led to the formation of the Russian style that has to today so captivated the world s imagination While the manifestations of this style are easily recognizable in gleaming gilt vibrant colors onion domes peasant costume and tsarist regalia hardly anyone has realized the pioneering and defining role that Fedor Solntsev 1801 1892 played in the development of a Russian national aesthetic This book rescues Solntsev from obscurity and celebrates his major contributions to the arts archaeology architecture ethnography icon painting restoration work and Russian nationalist ideology as well as place his work in a general European context Contributors include Marc Raeff Wendy Salmon Richard Wortman Anne Odom Irina Bogatskaia Marina Evtushenko Olenka Pevny Irina Reyfman Nathaniel Knight Lauren M O Connell and J Robert Wright

Helmets and Body Armor in Modern Warfare Bashford Dean, 1920

Every Monument Will Fall Dan Hicks, 2025-05-01 An extraordinary intervention If you want to understand the stakes and the limitations of contemporary conflict over culture and colonial history this bold provocative book is an indispensable resource Paul Gilroy founding Director of the Sarah Parker Remond Centre for the Study of Race and Racism at UCL Hicks must read book describes how it was possible for a human skull to be made into a drinking cup and used in a genteel Oxford college well into the 21st century as if empire were an eternal state of nature Read it to learn new ways to be anti racist abolitionist and to tell other stories than those commemorated by the monuments that surround us from statues to museums and the police Nicholas Mirzoeff author of White Sight Brave and clear sighted Hicks opens up an extraordinary conversation between the past and the present This is a book about falling statues but so much more It s about how we ve been lied to and how we can approach the past with honesty Hicks asks whether history and archaeology should be used to justify actions we know impinge on the rights of others or to understand ourselves better Alice Roberts bestselling author of Crypt Dan Hicks writes with grace and fierce focus about what we choose to remember and why in our patterns of thought our institutions and the built environment in which we live Eyal Weizman director of Forensic Architecture The culture war is over If you want it to be It wasn t even a culture war it was a war on culture A sustained attack Dan Hicks argues in the form of the weaponisation of civic museums public art and even universities and one that has a deeper history than you might think Tracing the origins of contemporary conflicts over art heritage memory and colonialism Every Monument Will Fall joins the dots between the building of statues the founding of academic disciplines like archaeology and anthropology and the warehousing of stolen art and human skulls in museums including the one in which he is a curator Part history part biography part excavation the story runs from the Yorkshire wolds to the Crimean War from southern Ireland to the frontline of the American Civil War from the City of London to the University of Oxford revealing enduring legacies of militarism slavery racism and white supremacy hardwired into the heart of our cultural institutions Every Monument Will Fall

offers an urgent reappraisal of how we think about culture and how to find hope remembrance and reconciliation in the fragments of an unfinished violent past Refusing to choose between pulling down every statue or living in a past that we can never change the book makes the case for allowing monuments to fall once in a while even those that are hard to see as monuments rebuilding a memory culture that is in step with our times *Putin's Russia* Darryl Cunningham,2022-02-15 Darryl Cunningham Billionaires returns with the riveting life story of Vladimir Putin Russia s infamous autocrat He traces Putin s development from schoolyard thug in Soviet era Leningrad to KGB officer to corrupt commodities dealer all the way to his presidency and beyond In this educational and frank biography Putin s journey is characterized by shifting loyalties brutal treatment of detractors and lawless financial dealings Despite all of this Putin has retained public support and tremendous importance in Russian society due to his ever tightening control over the media and harsh muzzling of critics Born in 1952 Putin grew up idealizing the KGB and he became a member of its ranks by early adulthood Cunningham posits that the speed with which Putin advanced politically was a reflection of the KGB s need to cement their control of the Russian political system after the dissolution of the Soviet Union in 1991 Since Boris Yeltsin appointed him to the presidency in 2000 Putin has annexed Crimea rolled back democratic reforms and led a life of luxury all the while fostering a cult of personality In Putin s Russia Cunningham situates the contentious leader in an analytical framework that is at times hilarious and always compelling Islamic Arms and Armor in The Metropolitan Museum of Art David G. Alexander,2015-12-31 Armor and weaponry were central to Islamic culture not only as a means of conquest and the spread of the faith but also as symbols of status wealth and power The finest arms were made by master craftsmen working with the leading designers goldsmiths and jewelers whose work transformed utilitarian military equipment into courtly works of art This book reveals the diversity and artistic quality of one of the most important and encyclopedic collections of its kind in the West The Metropolitan Museum s holdings span ten centuries and include representative pieces from almost every Islamic culture from Spain to the Caucasus The collection includes rare early works among them the oldest documented Islamic sword and is rich in helmets and body armor decorated with calligraphy and arabesques that were worn in Iran and Anatolia in the late fifteenth century Other masterpieces include a jeweled short sword yatagan with a blade of watered steel that comes from the court of S leyman the Magnificent a seventeenth century gold inlaid armor associated with Shah Jahan and two gold inlaid flintlock firearms belonging to the guard of Tipu Sultan of Mysore Presenting 126 objects each handsomely photographed and richly documented with a detailed description and discussion of its technical historical and artistic importance this overview of the Met s holdings is supplemented by an introductory essay on the formation of the collection and appendixes on iconography and on Turkman style armor **Russian Art and Art Objects in Russia** Alfred Maskell,1884 **Anthology of Russian Literature from the Earliest Period to the Present Time: From the tenth century to the close of the eighteenth century** Leo Wiener,1902 The Syrian Crisis Dania Koleilat Khatib,2020-08-20 This book analyzes the impact and

relevance of the Syrian crisis on regional and international relations Developing into a proxy war the Syrian crisis has been a battleground for regional dominance It has also created an opportunity for new states to emerge on the world affairs scene Russia for instance had been keeping a low profile since the fall of the Soviet Union but took a leading role in the Syrian crisis reasserting itself against the West regionally The Syrian crisis has also been a catalyst in reshaping many interstate relations and allowing countries such as Russia Iran Turkey and China to play an increasingly important geopolitical role There have been many international ramifications to the Syrian crisis While the crisis led to an Iranian Russian rapprochement it was also a catalyst to more cooperation between Russia and Saudi Arabia more importantly it also forced states with opposing views about the crisis Turkey Iran and Russia to forge an alliance Further the crisis created tensions between the US and Turkey with China on the one hand balancing its interests between the Gulf and Iran whilst focusing on its ambitious Belt and Road Initiative and trying on the other hand to contain Islamic militancy in Syria The book looks at issues that are usually ignored when discussing Syria such as the strategic control over its hydrocarbon resources as well as the power of propaganda in portraying realities It features the use of non state actors by regional competing powers and the role of local councils in stabilizing the country The edited volume brings together contributions by authors with different backgrounds who present conflicting views reflecting the divergence between the various stakeholders about the Syrian crisis
