Sacred Geometry Robert Lawlor,2007 **Spiritual Wellness and the Built Environment** Phillip James Tabb,2025-08-29 Imagine a world where buildings and cities actively nurture our well being not just physically but spiritually There is a growing awareness of the need for a more inclusive and comprehensive approach to wellness strategies in everyday life This book explores spiritual wellness as a foundational attribute of urban planning and design with the hope of influencing a more flourishing trajectory of development with the built environment Chapters reflect the beginning of this evolving movement in home and community design that tackles our uniquely modern problems of sedentary lives unhealthy diets stress social isolation pollution nature deprivation and inaccessibility to spiritually nurturing places The attributes of spiritual wellness are presented as defining characteristics informing design strategies These specific planning and design strategies are presented through case studies from around the globe that highlight the importance of spiritual wellness considerations at all scales of the built environment from rooms to cities This book is essential to help architects planners designers engineers healthcare providers project stakeholders and graduate students embrace and implement a successful wellness design approach [Art and Imagination Sacred Geometry](#) Robert Lawlor,1989-04-04 An introduction to the geometry which as modern science now confirms underlies the structure of the universe The thinkers of ancient Egypt Greece and India recognized that numbers governed much of what they saw in their world and hence provided an approach to its divine creator Robert Lawlor sets out the system that determines the dimension and the form of both man made and natural structures from Gothic cathedrals to flowers from music to the human body By also involving the reader in practical experiments he leads with ease from simple principles to a grasp of the logarithmic spiral the Golden Proportion the squaring of the circle and other ubiquitous ratios and proportions [Art and Imagination](#) These large format gloriously illustrated paperbacks cover Eastern and Western religion and philosophy including myth and magic alchemy and astrology The distinguished authors bring a wealth of knowledge visionary thinking and accessible writing to each intriguing subject 202 illustrations and diagrams 56 in two colors *Nurturing the Souls of Our Children* Robert Mitchell,2005 The Sin of Obedience is one of the few works of fiction or non fiction that looks profoundly and with deep personal reflection into the training of a Catholic priest The novel rich and accurate in detail is the story of a young prodigy torn with between the rigid religious traditions and convictions of his mother and the more humanity oriented respect for freedom of his father Building on his own experiences including being the subject of sexual abuse by a seminary teacher the author unfolds a picture of religious life in which the cornerstones of celibacy and a vow of obedience have forced seminarians and priests to make difficult and often impossible decisions in their own personal lives This well crafted story enables the reader to go along with a young boy seminarian and priest on his idealistic pursuit and mission and the consequences he has to face as a result **Teacher** Robert Mitchell,2023-01-30 THEME The vocational archetype stands behind the character of the teacher s

personality focusing lessons on both the intellectual and personality development of students Teachers discover the vocational archetype in themselves through trial and error The teacher student relationship in the autonomy of the classroom inspires the mind and nurtures the character of the soul However consciousness of mind and soul are different Soul consciousness has an imagistic nature that can see the spiritual archetype that stands behind the individual personality The child archetype is depicted in many cultures as the divine child The archetype of the adolescent is the hero The vocational archetype of the teacher is expressed in personality and character nurturing the archetypal characteristics in the personalities of the students However many teachers have lost touch with the archetypal characteristics of their vocation and must seek the vocational archetype on their own through trial and error This book is a portrait of one teacher s process of seeking the vocational archetype Experiences with students are a major part of the process The other part is to find and defend a classroom philosophy that evokes the teacher archetype in front of the students their parents and the administration The author will inspire encourage and empower teachers who are seeking the vocational archetype in themselves and give voice to the vocational archetype in our school communities and in our culture
