Gabriel Stux, Richard Hammerschlag, 2001. There is a large increase in interest in acupuncture by health care consumers. The three main reasons for this are medical effectiveness, cost effectiveness, and the credibility that clinical trials and physiological research have provided. Acupuncture is rapidly moving out of the arena of alternative medicine in large part again because it is grounded more firmly than other alternative treatments in research. The book provides the reader with the up-to-date information on the clinical bases of acupuncture.
