Manufacturing Hope And Despair:

Manufacturing Hope and Despair Ricardo D. Stanton-Salazar, 2001 Relying on a wealth of ethnographic and statistical data this groundbreaking volume documents the many constraints and social forces that prevent Mexican origin adolescents from constructing the kinds of networks that provide access to important forms of social support Special attention is paid to those forms of support privileged youth normally receive and working class youth do not such as expert guidance regarding college opportunities The author also reveals how some working class ethnic minority youth become the exception weaving social webs that promote success in school as well as empowering forms of resiliency In both cases the role of social networks in shaping young people s chances is illuminated In this badly needed alternative to the individualism that pervades most debates about American education Stanton Salazar explores how Latino teenagers lives are embedded within social networks from home community and school This grand work shows how school programs can confound or can draw from the strengths of such networks to build better lives for all Bruce J Biddle Professor Emeritus of Psychology and Sociology University of Missouri Columbia A beautifully written and inspiring book that announces a new generation of Mexican Latino scholars This is a book which tells the tale about Mexican Latino adolescents but in reality it is a book about how working class adolescent life is socially constructed defined and elaborated in the United States An eloquent rendering indeed Carlos G V lez Ib ez Presidential Chair in Anthropology University of California Riverside Using creative theorizing and rigorous methodology *Manufacturing Hope and Despair* illuminates brilliantly the supposed mystery of persistent race class inequities in American society Walter R Allen Professor University of California Los Angeles *Portraits of Promise* Michael Sadowski, 2013-02-01 By 2040 more than 30 percent of students in the United States will be immigrants or the children of immigrants What factors can help these young people thrive in school despite the many obstacles they face And how can school staff best support immigrant students academic and personal success In *Portraits of Promise* educators hear from the ultimate experts successful newcomer students Drawing on the students own stories the book highlights the kinds of support and resources that help students engage positively with school culture establish supportive peer networks form strong bonds with teachers manage competing expectations from home and school and navigate the challenges of high stakes testing and the college application process **Central Manufacturing District Magazine** ,1919 **Hispanic Journal of Behavioral Sciences** ,2011-05 *History of Multicultural Education: Policy and policy initiatives* Carl A. Grant, Thandeka K. Chapman, 2008 This benchmark 6 volume set documents analyzes and critiques a comprehensive body of research on the history of multicultural education in the U S By collecting and providing a framework for key publications spanning the last 30 40 years these volumes provide a means of understanding and visualizing the development implementation and interpretation of multicultural education in American society *Harvard Journal of Hispanic Policy* ,2001 **The Opportunity Gap** Carol DeShano Da Silva, 2007 The Opportunity Gap aims to shift attention from the current overwhelming

emphasis on schools in discussions of the achievement gap to more fundamental questions about social and educational opportunity The achievement gap looms large in the current era of high stakes testing and accountability Yet questions persist Has the accountability movement and attendant discussions on the achievement gap focused attention on the true sources of educational failure in American schools Do we need to look beyond classrooms and schools for credible accounts of disparities in educational outcomes The essays in this book reintroduce the overlooked central issue in educational inequity the lack of opportunity that many social groups face in our common quest for educational attainment In a series of wide ranging and carefully nuanced essays *The Opportunity Gap* casts much needed light on the vexed relationship between society and education and on the crucial persistent role that education plays in addressing social ills Contributors include Gilberto Q Conchas Raewyn Connell Pat English Sand Linda May Fitzgerald Patresa Hartman Jeff Howard Mieko Kamii Rafa M Kasim Christopher Kliever Robert A LeVine Sarah E LeVine Jodi Meyer Mork Robert Parris Moses Sonia Nieto Donna Raschke Stephen W Raudenbush Ray C Rist Beatrice Schnell Anzola Irene Serna Susan McAllister Swap and Amy Stuart Wells with an afterword by Ronald F Ferguson

Compelled to Excel Vivian S. Louie, 2004 In the contemporary American imagination Asian Americans are considered the quintessential immigrant success story a powerful example of how the culture of immigrant families rather than their race or class matters in education and upward mobility Drawing on extensive interviews with second generation Chinese Americans attending Hunter College a public commuter institution and Columbia University an elite Ivy League school Vivian Louie challenges the idea that race and class do not matter Though most Chinese immigrant families see higher education as a necessary safeguard against potential racial discrimination Louie finds that class differences do indeed shape the students different paths to college How do second generation Chinese Americans view their college plans And how do they see their incorporation into American life In addressing these questions Louie finds that the views and experiences of Chinese Americans have much to do with the opportunities challenges and contradictions that all immigrants and their children confront in the United States
