Many Masks Of Modern Art:

The Many Masks of Modern Art Theodore F. Wolff, 1989 A collection of essays culled from those written between 1980 and 1988 for The Christian Science Monitor by that publication's art critic The essays are informed, personal, and accessible. The book is beautifully produced with color reproductions of works discussed. It would have been enhanced by a bibliography and index, both of which are lacking. Published by The Christian Science Monitor, One Norway Street, Boston, MA 02115. Annotation copyrighted by Book News Inc, Portland, OR. [The Christian Science Monitor Index](#), 1985

Contemporary Art and Feminism Jacqueline Millner, Catriona Moore, 2021-07-05 This important new book examines contemporary art while foregrounding the key role feminism has played in enabling current modes of artmaking, spectatorship, and theoretical discourse. *Contemporary Art and Feminism* carefully outlines the links between feminist theory and practice of the past four decades of contemporary art and offers a radical re-reading of the contemporary movement. Rather than focus on filling in the gaps of accepted histories by adding the missing female, queer, First Nations, and women artists of colour, the authors seek to revise broader understandings of contemporary practice by providing case studies contextualised in a robust art historical and theoretical basis. Readers are encouraged to see where art ideas come from and evaluate past and present art strategies. What strategies, materials, or tropes are less relevant in today's networked, event-driven art economies? What strategies and themes should we keep hold of or develop in new ways? This is a significant and innovative intervention that is ideal for students in courses on contemporary art, within fine arts, visual studies, history of art, gender studies, and queer studies. **A**

History of Interior Design John F. Pile, 2005 Delivers the inside story on 6,000 years of personal and public space. John Pile acknowledges that interior design is a field with unclear boundaries in which construction, architecture, the arts, and crafts, technology, and product design all overlap. *History of Interior Design* John Pile, Judith Gura, 2013-11-11 This classic reference presents the history of interior design from prehistory to the present. Exploring a broad range of design styles and movements, this revised and expanded edition includes coverage of non-Western design and vernacular interior architecture and features 665 photographs and drawings, color and black and white. *A History of Interior Design* is an essential resource for practicing and aspiring professionals in interior design, art history, and architecture, and general readers interested in design and the decorative arts. **Boston Modern** Judith Arlene Bookbinder, 2005 A fresh, incisive study of the expressionist approach to modern art in Boston.
