Confronts the West René De La Pedraja, 2021-03-22 Russia's surprising return to the world stage since 2000 has aroused the curiosity if not the fear of the West Gradually the Kremlin went from a policy of deference to foreign powers to acting with independence The driver of this transformation was President Vladimir Putin who with skillful caution navigated Russia back into the ranks of global powers In theaters of conflict such as Georgia Syria and Ukraine the Kremlin won significant victories at little cost to consolidate its decisive position Following a chronological approach from the fall of the Soviet Union to the present this book draws on new documents to describe how Russia regained its former global prominence Clear accounts of key decisions and foreign policy events many presented for the first time provide important insights into the major confrontations with the West **Editor & Publisher**, 1925 *The fourth estate* *Fourth Estate*, 1926 **Commercial**
