Mosaic Memories:

Information Flow and Knowledge Sharing Flavio Soares Correa da Silva, Jaume Agusti-Cullell, 2008-05-01 Except from the Foreword The stated aim of the book series Capturing Intelligence is to publish books on research from all disciplines dealing with and affecting the issue of understanding and reproducing intelligence artificial systems Of course much of the work done in the past decades in this area has been of a highly technical nature varying from hardware design for robots software design for intelligent agents and formal logic for reasoning It is therefore very refreshing to see Information Flow and Knowledge Sharing This is a courageous book indeed It is not afraid to tackle the Big Issues notions such as information knowledge information system information flow collaborative problem solving and ontological reasoning All of these notions are crucial to our understanding of intelligence and our building of intelligent artificial systems but all too often these Big Issues are hidden behind the curtains while the technical topics take center stage AI has a rich history of philosophical books that have chosen a non standard structure and narrative It is nice to see that the authors have succeeded into combining a non standard approach to deep questions with a non standard format resulting in a highly interesting volume Frank van Harmelen Series Editor Excerpt from the Introduction Our interest is to promote through a better and deeper understanding of the notions of information and knowledge a better and deeper critical understanding of information technology as situated in the full range of human activities assuming as a principle that this range of activities cannot be properly appreciated when it is reduced to the simplified means end schema proposed by Technology We invite the reader to build his her own points of view about these notions considering our propositions as a starting point for a critical analysis and discussion of these points With that we believe we are contributing to a better understanding of the impact of technology and particularly of Information Technology in everyday life Flavio Soares Correa da Silva Jaume Agusti Cullell Bridges the gap between the technological and philosophical aspects of information technology Analyzes essential notions of IT such as information knowledge information system information flow collaborative problem solving and ontological reasoning **The Art of Taxidermy** Sharon Kernot, 2018-07-02 Shortlisted for the 2017 Text Prize Lottie collects dead creatures and lovingly cares for them hoping to preserve them to save them from disintegration Her father understands Lottie has a scientific mind he thinks Her aunt wants it to stop and she goes to cruel lengths to make sure it does And her mother Lottie s mother died long ago And Lottie is searching for a way to be close to her The Art of Taxidermy is a heartbreaking verse novel exploring love and death grief and beauty and the ways we try to make sense of it all Sharon Kernot writes poetry and fiction Her work has appeared in a variety of journals magazines and anthologies including Island Mascara Literary Journal Best Australian Poems and Australian Love Stories Completely mesmerising fresh and unexpected Diana Sweeney winner of 2013 Text Prize An intense exploration of grief Steven Herrick An exquisite lyrical verse novel A sharply evocative tale West Weekend The work couples the swift clipped charm of a verse novel and the unpredictable beauty of the Australian landscape in a captivating

manner that showcases an author entirely comfortable with her form Lingers in the mind for weeks afterwards Tulpa Magazine Kernot has created an intriguing tale of mystery and the imagination with a haunting ambience that the ghost of Edgar Allan Poe would recognise and admire this is a delightful story about grief transformed and the urge to resurrect and to re create Saturday Paper This book is beautifully written while the novel is about grief it is also about the importance of remembering and keeping the memory of loved ones alive Magpies Magazine In lyrical language Kernot draws a comparison between the Australian bush and death both are beautiful and desolate at once Readings Kernot s writing is imbued with life and grace and moments of infectious joy SA Weekend *The Art Of Ambivalence* Muntazir,2022-08-26 This poetry collection is all about being stuck at an intersection of sadness and pleasure It s about the feeling of numbness and the feeling of being an ambivalent These poems are neither totally painful nor do they make me smile **Walking Palestine** Stefan Szepesi,2012-12-31 With the images of the Israeli Palestinian conflict so dominant in our minds walking for leisure is the one activity probably least associated with the West Bank region But Stefan Szepesi s book wanders well off the beaten track of Palestine as only a synonym for occupation and strife exploring its inspiring natural and cultural landscape its intriguing past and present and the hospitality of its people The book takes first time walkers and experienced hikers as well as armchair explorers through Palestine s steep desert gorges along its tiny herders trails and over its quiet dirt roads running past silver green olive groves With side stories and anecdotes on heritage history culture and daily life in the West Bank the book ventures into the traits and character of Palestine today Beyond the 250 km of walking trails described and mapped in detail throughout the book Walking Palestine offers a wealth of practical walking tips including references to local guides the West Bank s best leisure spots and countryside restaurants and the most charming places to spend the night *Betti'S Blog Beyond Stone* William David,2013-01-18 This is a companion to Educating Stone It is not a volume two or a sequel but a companion Both works of fiction stand alone but if you first read Educating Stone this companion book will make a little more sense to you particularly the sequels A few of Bettis favorite blogs from Educating Stone are re presented for further enjoyment In this second book of novel poetry I am using strike through as a means to display an alternative thought to a poem Perhaps the stricken line is presented as a subjectively better line or perhaps the stricken line may be the first thought but not the best thought Maybe the stricken line is the best way to write a second meaning to the poem so that the reader benefits from both meanings This is a novel poetry idea not a mainstream idea The use of parentheses does not create the subtleness of meaning that I wish to convey to the reader There is one poem called Beige Love where the strike through conveys past gone removed deleted I also use emoticons J sparingly in just a few poems where I think it helps convey a thought The first set of books that I have written contains the novel Gunplay Beauty Redeemed and the companion book of poetry Bettis Blog Beyond Beauty Redeemed All four books feature Betti in her garden in Phoenix Please note that all characters appearing in this work are fictitious Any resemblance to real persons living or dead is purely coincidental All

references to street addresses phone numbers and websites are fictitious Any resemblances to any of these are purely coincidental In addition to Bettis Blog there are other poems of a wide range of subjects I hope that you enjoy Bettis Blog
