Public Relations Writing Principles In Practice 2d Ed Student Workbook:

Public Relations Writing Donald Treadwell, Jill B. Treadwell, 2005-04-19 Public Relations Writing is currently the best public relations writing text available. The authors offer a no-nonsense approach to teaching public relations writing. The text has great explanations of how to write an assortment of public relations documents and includes examples of each. Treadwell and Treadwell also spend time dealing with the aesthetics of public relations or how documents should look: color, paper, format, etc., as well as how they should be written. Of special note are the excellent discussions of communication theory that many of the other writing texts lack. Michael L. Kent, Montclair State University. This book integrates experiential exercises useful to understanding writing from an organizational perspective. The assignments require a student to become knowledgeable about the Internet and work as a member of a team. The text/workbook concept is very helpful if the course is taught online. The references to resources are invaluable for research. Bonita Dostal Neff, Ph.D., Valparaiso University. **Public Relations Writing Principles in Practice** is a comprehensive core text that guides students from the most basic foundations of public relations writing: research, planning, ethics, organizational culture, law, and design through the production of actual, effective public relations materials. The Second Edition focuses on identifying and writing public relations messages and examines how public relations messages differ from other messages. **Public Relations Writing** begins with an overview of the principles of basic strategic communication decision making, followed by chapters that apply these strategies and practices of writing public relations messages for multiple audiences. Authors Donald Treadwell and Jill B. Treadwell examine the macro-level understanding of societal factors that affect the relationships between organization and audience and the micro-level understanding of language and its applications that leads to elegant, finely-tuned, effective messages. New to the Second Edition: Covers foundational theory at the beginning of the text with references and applications woven throughout the book. Includes chapters devoted exclusively to writing for the Web, crisis, and voice. Provides more examples from the corporate, government, sports, and entertainment, education, and nonprofit sectors. Includes multiple samples from the same organizations to demonstrate a common public relations message across writing genres. Demonstrates how clients operate in the real world rather than a fictitious location. Includes new and revised exercises. **Public Relations Writing** is ideal for undergraduate and graduate courses in public relations writing, media writing, and media relations. An Instructor's Resource Manual is available on CD to qualified adopters. These resources include ideas for adapting the text for use with real-world clients, additional full-text examples, PowerPoint presentations, and ideas for course and student assessment. **Public Relations Writing Student Workbook** Donald Treadwell, Jill B. Treadwell, 2005. Treadwell's Student Workbook gives students the opportunity to put their learning into practice. The workbook introduces four fictional clients, two of them new for which students may work as they complete assignments. These clients include both commercial and nonprofit organizations. A new Research section bridges the gap between clients and the real world of the student's college city or

region so that clients can be localized to the student's area. This will also be useful for faculty who choose to assign actual or other fictional clients.
