Safe Return Doubtful:

Safe Return Doubtful John Maxtone-Graham,2000 Farthest north farthest south in the heroic age of polar exploration at the beginning of the twentieth century the race was ferociously contested British American Swedish and Norwegian expeditions all vied for the greatest prize of all the poles knowing that they might forfeit their lives in the attempt On the way they faced horrific conditions frostbite and starvation rations exhaustion and too often also the bitter clashes of personality that beset men under extreme stress In these days of modern technology it is almost impossible for us to imagine the hardship these explorers endured Sledgers camped overnight in subzero agony their sweat soaked furs frozen into icy suits of armour as soon as they stopped moving With no vitamins and no easily preserved food they faced scurvy and worse This hair raising account covers every aspect of the polar great game the renowned names such as Robert Peary Roald Amundsen Salomon Andree Fridtjof Nansen Ernest Shackleton and Robert Scott are all here their ponies dogs and sledges their daily experiences and always the addictive quest for polar immortality **'And I quote...'** Elizabeth Knowles,2018-09-19

Quotations are an essential part of the fabric of the language In **And I quote** Elizabeth Knowles draws on her experience editing the Oxford Dictionary of Quotations and employs a wide repertoire of examples ranging from the classical canon to contemporary popular culture to illuminate just how and why we quote Her investigation focuses on how we find choose and use quotations in 21st century English but it also leads her back in time to follow the journeys taken by individual quotes as their meaning changes subtly and sometimes not so subtly over the decades and in many cases the centuries In following the often surprising stories of individual quotations we gain an understanding of how they establish themselves and to what degree they can develop a life independent of their original coinage Everyone has their own quotations vocabulary and each reader of the book will think of further items that they would use and wish to explore but the journeys mapped here illuminate the many fascinating ways in which quotations have embedded themselves in the language from the earliest dictionaries of quotations to the online world we experience today **Ice Bears and Kotick** Peter Webb,2008-03 This is the story of an extraordinary boat journey that two men made for the fun of it They rowed and sailed through pack ice past glaciers and icebergs They survived whales polar bears starvation and capsized In doing so they completed the first circumnavigation of the Arctic Island of Spitsbergen in an open rowing boat Along the way they learned about themselves and about life experienced a frozen wilderness that will most likely disappear before the century is out This is a story for small boat sailors for lovers of ice and snow and for anybody who wanted to run away to sea *Mapping Motivation for Engagement* James Sale,Steve Jones,2018-09-20 Employee engagement is undeniably a crucial focus point for organisations in the twenty first century with motivation comprising the often missing but vital component of the developmental mix *Mapping Motivation for Engagement* advocates a new paradigm for the twenty first century away from hierarchies and command and control management styles towards a bottom up approach in which the needs and motivators of the employees

take centre stage Co written with Steve Jones this is the third in a series of books that are all linked to the author James Sale s Motivational Map diagnostic tool Each book builds on a different aspect of personal team and organisational development This book is a practical guide to the complexities of understanding and dealing with engagement in modern organisational life Along with clear diagrams reflective points activities and a comprehensive index the book provides free access to the online Motivational Map tool to facilitate a greater understanding of the contents Drawing on copious amounts of the latest research as well as models like the Macleod Report for the UK government this book shows how Mapping Motivation can play a significant and crucial role in making engagement a reality instead of a dream Mapping Motivation for Engagement is a stimulating and thought provoking read for a wide audience including but not limited to trainers and coaches working in management and motivation experts in human resources internal learning and development and organisational development as well as change and engagement consultants and specialists

The Black Robe Wilkie Collins,1881 **The Hero Trap** Thomas Kolster,2020-05-28 Most companies today are firmly on the social and environmental issues bandwagon like

bees around a honey pot from plastic in oceans through to diversity As a result people are increasingly distrustful of these efforts which they view as cheap marketing stunts meant to wow people into buying more Try to fly like a superman and you will come down like a tin of soup Market economists have long told us that we re driven only by money and status but the inherent human truth that cuts across age culture and gender uncovers a stronger force we wish to be in charge of our own lives and our own happiness Through extensive growth and affinity research world renowned purpose pioneer Thomas Kolster uncovers a simple answer that is key to driving marketing growth in the 21st century if you put people in control of the marketing mix from products to promotion they can grow and in turn grow your organisation This book explains the meteoric rise of a company like AirBnB how a 20 something Swede Maria de la Croix built a global coffee empire like Wheelys in just a few years and how a group of friends hanging out in a bar in Melbourne created one of the largest global non profits fighting for men s health Movember and how you can empower people to do the same Today s power no longer rests in the hands of the privileged few but in the talented many It is time for you to unleash that power in numbers Drawing on top line marketing case studies and in depth interviews Kolster demonstrates how people are truly motivated to act when they re in charge of their own life and happiness Who can you help me become is the one essential question you need to be asking and acting on to chart a new course for your organisation changing behaviours at scale and unlocking sustainable growth that benefits all
