Safety First The Making Of New Labour:

Welfare Hot Buttons Sylvia B. Bashevkin, 2002-09-28 *Welfare Hot Buttons* provides one of the first comparative assessments of contemporary social policy change in three Western countries Canada the United States and Great Britain Sylvia Bashevkin probes the fate of single mothers on social assistance during the period when three third way political executives were in office Bill Clinton US Jean Chr tien Canada and Tony Blair Great Britain and argues that despite seemingly progressive campaign rhetoric the social assistance policy realities under each of these three leaders were in crucial respects more punitive and restrictive than those of their neo conservative predecessors in the 1980s Bashevkin addresses even more contentious issues in her study including the question of whether Anglo American welfare states are being eclipsed by what she views as newly emergent duty states In her comparative approach and in her substantive analysis Bashevkin makes an original and critical contribution to the existing body of literature on social policy *The British Labour Party in Opposition and Power 1979-2019* Patrick Diamond, 2021-01-18 This book provides a novel account of the Labour Party s years in opposition and power since 1979 examining how New Labour fought to reinvent post war social democracy reshaping its core political ideas It charts Labour s sporadic recovery from political disaster in the 1980s successfully making the arduous journey from opposition to power with the rise and ultimately fall of the governments of Tony Blair and Gordon Brown Forty years on from the 1979 debacle Labour has found itself on the edge of oblivion once again Defeated in 2010 it entered a further cycle of degeneration and decline Like social democratic parties across Europe Labour failed to identify a fresh ideological rationale in the aftermath of the great financial crisis Drawing on a wealth of sources including interviews and unpublished papers the book focuses on decisive points of transformational change in the party s development raising a perennial concern of present day debate namely whether Labour is a party capable of transforming the ideological weather shaping a new paradigm in British politics or whether it is a party that should be content to govern within parameters established by its Conservative opponents This text will be of interest to the general reader as well as scholars and students of British politics British political party history and the history of the British Labour Party since 1918 Fabian Review ,1997 *Safety First for Vocational Schools* Lewis Albert Wilson, 1916 *Patient Safety First* Paul Dugdale, 2020-07-29 Each year more people die in health care accidents than in road accidents Increasingly complex medical treatments and overstretched health systems create more opportunities for things to go wrong and they do Patient safety is now a major regulatory issue around the world and Australia has been at its leading edge Self regulation by professional and industry groups is now widely regarded as insufficient and government is stepping in In *Patient Safety First* leading experts survey the governance of clinical care Framed within a theory of responsive regulation core regulatory approaches to patient safety are analysed for their effectiveness including information systems corporate and public institution governance models the design of safe systems the role of medical boards open disclosure and public inquiries *Patient Safety First* includes chapters by
