

EVERYTHING YOU NEED TO KNOW ABOUT OUR **BLOOD SAFETY** PROGRAM

In **September 2012**, AIHA launched the project in Cambodia, Kazakhstan, Kyrgyzstan, Tajikistan, Uzbekistan[1], and Ukraine.

Six project objectives were identified in accordance with the June 26, 2012 memorandum from the **GAP Prevention Branch**:

- 1** Infrastructure development –improve the management, organization, and technical capability of the transfusion services
- 2** Blood Collection – increase blood collection from voluntary non-remunerated blood donors from low risk populations and improve donor counseling, voluntary non-remunerated donors (VNRD)
- 3** Blood testing and production of components –improve safety by improving blood testing, processing of samples and cold chain management
- 4** Quality assurance, including monitoring and evaluation – establish a quality assurance system and introduce a national M&E program
- 5** Transfusion and blood utilization –improve clinical use of blood
- 6** Training – a cross-cutting issue to achieve the first five technical requirements.

Please note that AIHA never implemented activities in Uzbekistan since the MoH rejected the WHO/CDC project proposal. Further, AIHA engaged international experts to conduct baseline assessments of the blood services in Kyrgyzstan, Tajikistan, and Ukraine. Based on the findings and recommendations of these assessments, AIHA refined the focus of the project in each country.
