The Scapegoat Complex Sylvia Brinton Perera, 1986      **The Scapegoat Complex** Sylvia Brinton Perera, 1986 An in depth study of victim psychology based on historical ritual dreams mythology and case material Shows that scapegoating is a way of denying one's own dark side by projecting it onto others

**The Dark of the Soul: Psychopathology in the Horoscope** Liz Greene, 2023-07-12 Disturbed psychological states have baffled both religion and medicine for as long as human beings have existed Despite the explorations of modern psychology we are no closer to understanding these expressions of human suffering than we were a thousand years ago Although it can offer no solutions astrology can provide many insights into why some individuals respond to conflict and unhappiness by retreating from life and why do others respond with savagery toward their fellows This is a reprint of the CPA Press original The three seminars in this book use astrological perspectives to explore a spectrum of extreme psychological states from the condition known as psychopathy to the collective mechanism of scapegoating as much a pathology as any diagnosed mental illness Astrologers often avoid confronting the issues of madness and human destructiveness and political correctness has made it even more difficult to face such issues honestly and without sentiment or hypocrisy But only by exploring the roots of what we call madness can we find any positive and creative approach to the mystery of why some individuals fail to cope constructively with life's challenges This book will sometimes shock and disturb but it is an invaluable resource for any practicing astrologer concerned with the dilemma of human suffering and any lay person wishing to understand how astrology can contribute to our comprehension of human behaviour

**The Spread of Tibetan Buddhism in China** Dan Smyer Yu, 2013-03-01 Focusing on contemporary Tibetan Buddhist revivals in the Tibetan regions of the Sichuan and Qinghai Provinces in China this book explores the intricate entanglements of the Buddhist revivals with cultural identity state ideology and popular imagination of Tibetan Buddhist spirituality in contemporary China In turn the author explores the broader socio cultural implications of such revivals Based on detailed cross regional ethnographic work the book demonstrates that the revival of Tibetan Buddhism in contemporary China is intimately bound with both the affirming and negating forces of globalization modernity and politics of religion indigenous identity reclamation and the market economy The analysis highlights the multidimensionality of Tibetan Buddhism in relation to different religious cultural and political constituencies of China By recognizing the greater contexts of China's politics of religion and of the global status of Tibetan Buddhism this book presents an argument that the revival of Tibetan Buddhism is not an isolated event limited merely to Tibetan regions instead it is a result of the intersection of both local and global transformative changes The book is a useful contribution to students and scholars of Asian religion and Chinese studies

*Sacred Disobedience* Sharon L. Coggan, 2020-07-07 *Sacred Disobedience* A Jungian Analysis of the Saga of Pan and the Devil traces the ancient Greek God Pan who became distorted into the image of the Devil in early Christianity When Pan was demonized the powerful qualities he represented became

repressed as Pan's visage twisted into the model of the Devil. This book follows a Jungian analysis of this development. In ancient Greek religion, Pan was worshipped as an honored deity corresponding to an inner psycho-spiritual condition in which the primitive qualities he represented were fully integrated into consciousness and these qualities were valued and affirmed as holy. But in the era of early Christianity, Pan dies and the Devil is born, a twisted inflation possibly due to an underlying repression. In the Jungian system, repressed psychic contents do not disappear; as proponents of the new order tacitly assume, but distort and grow more powerful or inflate to cripple the psyche that refuses to incorporate these split-off elements. Repressed contents will expand to explosive force as the repressed elements eventually return regressively from below. It becomes important then to understand what qualities the primitive Goat God carried to appreciate what was repressed in the Western psycho-spiritual system and what subsequently needs reintegration.

Trauma, Memory, and Narrative in the Contemporary South African Novel, 2012-01-01. The contributions to this volume probe the complex relationship of trauma, memory, and narrative. By looking at the South African situation through the lens of trauma, they make clear how the psychic deformations and injuries left behind by racism and colonialism cannot be mended by material reparation or by simply reversing economic and political power structures. Western trauma theories as developed by scholars such as Caruth, van der Kolk, Herman, and others are insufficient for analysing the more complex situation in a postcolony such as South Africa. This is because Western trauma concepts focus on the individual traumatized by a single identifiable event that causes PTSD (Post-Traumatic Stress Disorder). What we need is an understanding of trauma that sees it not only as a result of an identifiable event but also as the consequence of an historical condition, in the case of South Africa, that of colonialism and more specifically of apartheid. For most black and coloured South Africans, the structural violence of apartheid's laws were the existential condition under which they had to exist. The living conditions in the townships, pass laws, relocation, and racial segregation affected great parts of the South African population and were responsible for the collective traumatization of several generations. This trauma, however, is not an unclaimed and unclaimable experience. Postcolonial thinkers who have been reflecting on the experience of violence and trauma in a colonial context, writing from within a Fanonian tradition, have on the contrary believed in the importance of reclaiming the past and of transcending mechanisms of victimization and resentment so typical of traumatized consciousnesses. Narration and the novel have a decisive role to play here.

**The Revealing Image** Joy Schaverien, 1999. This is a book about an analytical approach within art therapy which may be of interest in itself. The material also raises issues of interest to analysts and psychotherapists, whether or not they work with art in the clinical setting. The book clarifies areas of similarity between the disciplines and also makes areas of difference apparent.
