Scenes of Seduction Jann Anne Matlock,1988

Freud and the Scene of Trauma John Fletcher,2013-12-02

This book argues that Freud's mapping of trauma as a scene is central to both his clinical interpretation of his patients symptoms and his construction of successive theoretical models and concepts to explain the power of such scenes in his patients lives This attention to the scenic form of trauma and its power in determining symptoms leads to Freud's break from the neurological model of trauma he inherited from Charcot It also helps to explain the affinity that Freud and many since him have felt between psychoanalysis and literature and artistic production more generally and the privileged role of literature at certain turning points in the development of his thought It is Freud's scenography of trauma and fantasy that speaks to the student of literature and painting Overall the book develops the thesis of Jean Laplanche that in Freud's shift from a traumatic to a developmental model along with the undoubted gains embodied in the theory of infantile sexuality there were crucial losses specifically the recognition of the role of the adult other and the traumatic encounter with adult sexuality that is entailed in the ordinary nurture and formation of the infantile subject

Telling Tales Katherine Cummings,1991 A Stanford University Press classic

Seductive Mirage Allen Esterson,1993 Book jacket back Although it is now widely held that the scientific basis for Sigmund Freud s theories is decidedly wobbly and his surmises often appear woefully incomplete at best there yet remains an impression that Freud was a bold explorer of the mind s hidden depths a penetrating if fallible discerner of unsuspected motives behind the superficially innocent forms of behavior And if even that is now more frequently questioned we are at least left with the consolation that Freud however misguided was a man of unspotted integrity who sincerely strove to uncover the truth and accurately reported what his clients told him
