Praxis And Action:

Praxis and Action Richard J. Bernstein, 2011-06-03 From the Introduction This inquiry is concerned with the themes of praxis and action in four philosophic movements Marxism existentialism pragmatism and analytic philosophy It is rare that these four movements are considered in a single inquiry for there are profound differences of emphasis focus terminology and approach represented by these styles of thought Many philosophers believe that similarities among these movements are superficial and that a close examination of them will reveal only hopelessly unbridgeable cleavages While respecting the genuine fundamental differences of these movements this inquiry is undertaken in the spirit of showing that there are important common themes and motifs in what first appears to be a chaotic babble of voices I intend to show that the concern with man as an agent has been a primary focal point of each of these movements and further that each contributes something permanent and important to our understanding of the nature and context of human activity Praxis and Action Richard J. The Case for Work Jean-Philippe Deranty, 2024-10-08 The modern work ethic is in crisis The numerous harms and injustices harboured by current labour markets and work organisations combined with the threat of mass unemployment entailed in rampant automation have inspired a strong post work movement in the theoretical humanities and social sciences echoed by many intellectuals

journalists artists and progressives Against this widespread temptation to declare work obsolete The Case for Work shows that our paltry situation is critical precisely because work matters It is a mistake to advocate a society beyond work on the basis of its current organisation In the first part of the book the arguments feeding into the case against work are located in the long history of social and political thought This comprehensive genealogical inquiry highlights many conceptual and methodological issues that continue to plague contemporary accounts The second part of the book makes the case for work in a positive way through a dialectical argument The very feature of work that its critics emphasise namely that it is a realm of necessity is precisely what makes it the conduit for freedom and flourishing provided each member of society is in a position to face this necessity in conditions that are equal and just
