Textures of Light Cathryn Vasseleu,2002-01-31 Textures of Light draws on the work of Luce Irigaray Maurice Merleau Ponty and Emmanuel Levinas to present an outstanding and ground breaking study of the vital importance of light in Western thought Since Plato s allegory of the cave light and the role of sight have been accorded a unique position in Western thought They have stood as a metaphor for truth and objectivity and the very axis of modern rationalism More recently however this status has come under significant criticism from continental and feminist thought which has stressed the privileging of subjectivity and masculinity in such a metaphor **Orogenies of Light** Richard Leviton,2019-10-29 ONE DAY IN 2084 EARTH S ORIGINAL MOUNTAINS SUDDENLY REAPPEARED ON THE PLANET AS 85 000 DOMED CANOPIES OF LIGHT FROM THE STARS The story of this return is told by Blaise a well informed but mysterious figure who claims to be an engineer 134 years old and part of an ancient team that first designed the planet It s a chronicle of his last field assignment a unique career retrospective and a firsthand account of the momentous return of the domes These are giant half spheres of Light that originally helped create the biosphere and were the Earth s first mountains They generated the Earth s sacred sites and the mythic homes of the gods and linked them all in a global pattern of Light The domes arrived all at once and started to reorganize the global landscape It was their fourth visit and it would be several perilous years as the planet adjusts to it Blaise and his team of geomancers travel across the Earth and time to deal with the unprecedented perturbations set in motion by this celestial rescue of the planet Problems are rife the revolt of Pan and the Nature Spirits the continuing dark interference by humanity s ghostly forebears the resurgence of Babylon and its imperious agenda and the planet s dangerous drift towards becoming flattened like a hockey puck But the opportunities are fabulous too as the

planet enters an era of unceasing Light and beatific conditions The return of the domes lays bare the true history of the Earth how it diminished from perfection the benign superintendents of this bold experiment and who its earliest inhabitants were and the massive problems they created which still affect us today It is a genuinely apocalyptic moment as the Earth reveals its original bright pattern of energy and consciousness and starts at last to fulfill its destiny **The Holy Word for**

Ogliari,2003 The issues involved in the discussion between the monks of Hadrumetum Marseille and Augustine range from questions of initium fidei and naturae bonum to the understanding of predestination The monks reaction to Augustine s doctrine of absolute sovereign grace must be seen as a plea in favour of a harmonizing approach where human commitment is also envisaged as playing at times a primary role In the light of a dialogical synergism of a unitarian and cosmic view of God s oeconomia salutis and relying on a strong ascetic framework the monks biggest fear was that the implications of Augustine s predestinarian view would jeopardise the importance of the struggle for perfection the meaning of God s universal salvific will of Christ s redeeming action and finally of the Church The different theological traditions to which Augustine and the monks appealed play also a significant role as do the specific social and religious context in which they respectively moved The Open Court Paul Carus,1913 **The Revised Theory of Light** William Cave Thomas,1875
