Reassessing Fatherhood:

Reassessing Fatherhood Charlie Lewis, Margaret O'Brien, 1987 Much recent literature on fathers conveys the optimistic message that men are becoming increasingly involved in family life and that such participation is necessarily beneficial This book contends that evidence for the new father is in reality hard to find and that the paternal role persists in being limited by social institutional and personal forces The book's contributors psychologists and sociologists from Britain Australia Scandinavia and North America examine the problematic nature of fatherhood from three different perspectives Part One examines research evidence from studies of fathers in typical families Chapters look at the history of paternal roles the employment of both fathers and mothers and men's involvement with other members of the family all share the thesis that given contemporary ideologies fathering is necessarily limited Part Two critically reviews research on men who encouraged by enlightened social policy makers have attempted to become more involved in child care and domestic responsibilities The contributors point out the contradictions between the expectations of the policy makers and the realities of family life greater involvement in the home by men usually causes stress and difficulties for other members particularly mothers Part Three considers the position of men in therapeutic settings where the father is often seen as a passive opaque figure with whom it is difficult to work and offers sound advice on how family workers can incorporate men into counselling social work and therapy Two chapters also investigate the role that custody arrangements play in the divorced father's life **Reassessing Fatherhood** provides a fresh and often provocative view of the modern father that will change the complacent and euphoric vision of the new family

Fragmenting Fatherhood Richard Collier, Sally Sheldon, 2008-09

Debates about the future of fatherhood have been central to a range of conversations about changing family forms parenting and society Law has served an important yet often neglected role in these discussions serving as an important focal point for broader political frustrations playing a central role in mediating disputes and operating as a significant symbolic state sanctioned account of the scope of paternal rights and responsibilities Fragmenting Fatherhood provides the first sustained engagement with the way that fatherhood has been understood constructed and regulated within English law Drawing on a range of disparate legal provisions and material from diverse disciplines it sketches the major contours of the figure of the father as drawn in law and social policy tracing shifts in legal and broader understandings of what it means to be a father and what rights and obligations should accrue to that status In thematically linked chapters cutting across substantive areas of law the book locates fatherhood as a key site of contestation within broader political debates regarding the family and gender equality Multiple visions of fatherhood evolving unevenly over time across diverse areas of law emerge from this analysis Fatherhood is revealed as an essentially fragmented status and one which is intertwined in complex ways with the legal cultural and political contexts in which discourses of parenthood are produced Fragmenting Fatherhood provides an important and unique resource speaking to debates about fatherhood across a range of fields including law and legal theory sociology gender studies social policy marriage and the family women s studies and gender studies

Constructing Fatherhood Deborah Lupton, Lesley Barclay, 1997-09-29 This work provides an interdisciplinary analysis of the social cultural and symbolic meanings of fatherhood in contemporary Western societies The authors draw in poststructuralist theory to analyze the ways that fatherhood is represented in expert literature and in the mass media

strategies used to reproduce normalized heterosexual notions of marriage and to avoid confronting heterosexism James S Frideres stresses the importance of the family among aboriginal immigrant and visible minorities communities as family members learn to cope with the dynamics of integration and adaptation to mainstream Canadian culture In Chapter 11 he focuses on key issues affecting family life for these groups intermarriage gender roles in minority communities social and economic demographics in comparison to mainstream Canadians differences in social structure and organization and risk factors that affect Aboriginal immigrant and visible minority youth In Chapter 12 Michelle K Owen draws our attention to the impact that disability has on Canadian families the role that gender plays in the lives of people with disabilities the relationship between poverty and disability and the increased incidence of physical and sexual abuse among people with a disability The final part of the book is devoted to law and policy In *All in the Family Violence Against Women Children and the Aged* Aysan Sev er examines the dark side of the family where power differences can translate into mental physical and or sexual abuse and even murder She reviews the basic definitions of abuse and introduces theories that explain violence within intimate relationships She then addresses possible interventions at the social and structural levels that may diminish the incidence of abuse The role of the state in regulating family life is addressed in Chapter 14 Catherine Krull details the evolution of Canada s family policies within a liberal welfare state and examines the ideology and implications of a universal versus a targeted approach to family policies Krull argues that we need to appreciate why state intervention is necessary if we are to achieve gender equity and suggests that Quebec s progressive family policies should serve as a model for the rest of Canada In the final chapter Margrit Eichler takes a lighthearted look at the predictions that experts made regarding the future of the family from 1930 to 1975 After reviewing some predictions that were spectacularly wrong and others that were surprisingly accurate Eichler bravely makes her own predictions regarding the future of the family she anticipates a modest trend towards three generation families as one response to economic uncertainties and political turmoil a decrease in life expectancy continuing low fertility with high immigration from third world countries less homophobia a continuing slow erosion of strictly defined gender roles and a continuing diversity of unions including common law and legal marriages opposite and same sex marriages In short families will continue to exist some will prosper others less so and children will continue to be raised within family settings which will probably be even more diverse than at present
